2000 YEARS TOO LATE

We apologize for not coming out with our new AEGEAN series sooner. Frankly, we just didn't realize it would be so popular. We should have known that the classic designs of Ancient Greece are, in a sense, timeless. Smooth, clean lines. Graceful, sweeping curves. Func-

tional, frill-free styling. The AEGEAN 1100 Series is all this . . . and more. Underneath it all is .065 gauge hard-drawn aluminum. Not .044 or .055. Not woulded tubing either. We start with the

best. Then we use our new secret priming process as the basis for a chip-proof finish. This is standard on all Tropitone furniture, effective immediately. Acrylic enamels are then applied electrostaticly and baked on at 400°. The 1" vinyl straps will not break, sag or stretch out of

shape. Table tops are glass, American Cyanamid's new Acrylite, or our famous TITON fiberglass. Ask for our catalogue. We think you'll agree, it's better to be late than never.

The Cover

Fifth Annual Directory Issue—complete classified listings of products and services applicable to contract planning and furnishing—valid throughout 1967. Plus—a new series on How America Works, Studies, Banks, Shops, Travels. Cover by Bert Lester.

the chair that's going places-

A NEW ADAPTATION IN FUNCTIONAL DESIGN FOR TODAY'S BEST VALUE IN LUXURIOUS CHAIRS

100% Foam Seat and Back give a sense of continued luxury – even for extended sitting periods. Seat and back disassemble quickly with only a screw driver – making reupholstering a faster, less expensive process.

Exclusively styled Metal Back Posts protect upholstery from table edges and other chairs when butted.

Contoured Compounded Curved Back for high styling and extreme comfort. Luxurious Satin Aluminum Finish never scratches . . . never rubs off . . . never wears off. Gives that "fresh from the factory" look even after years of useage.

Solid, non-Porous Die-Cast Aluminum Frame for superior durability and maintenance-free performance. Easy to keep clean.

No Unsightly Exposed Fasteners or Screws to mar the clean sophisticated lines that accentuate its beauty. Quality Custom Upholstering in a wide array of fabric grades and colors—harmonizing with every decorating decor.

Rubber Cushioned Glides prevent the marring of costly floors . . . reduce noise and permit easy mobility.

Unexposed Crumb Trough in rear of seat eliminates dirt collecting corners and facilitates easy cleaning.

3 YEAR UNCONDITIONAL GUARANTEE L. & B guarantees its die-cast frame against breakage for a full 3 years.

LATE NEWS

Intercon firms up topics for seminars

Intercon I, the international contract exposition and congress which will take place March 20-22 in Chicago, issued a complete list of seminar topics late last month. Days and hours have not been set as of this writing; we expect to have them in time for our February issue, a large portion of which will be devoted to Intercon I.

Exhibits at Intercon I will be at the Merchandise Mart and McCormick Place. The seminar sessions, which will all convene at McCormick Place, will include the following subjects:

Where the Market Is; Financing Furnishings; Innovations in Innkeeping; American Naivete in Import and Export; Expanding Role of the Nurse —Her Needs; The World Looks at U.S. Design; Theology and Environment the special design requirements of the church; The Distribution Devil-problems and solutions in product distribution; The Treasure Chest - The World's Money-sources of funds for international work; Communication and Education; Responsibility of the Press and Mass Media; Who "Furnishes" the Out-of-doors; Product Literature; Effect of Hospital Environment on Therapy.

Also, Red Carpet or Red Tape in Government Design; Achievement of Spiritual Values through Design; The Specialty Restaurant; The Office Landscape; Are the Students ahead of the Professionals; Requirements of the Small College; An Industrialist Looks at Design Economics; Elements of Student Housing; Contract Language; Planning for the Elderly; Retarded Children and Space Distribution; Role of the Professional in Religious Design; Design Opportunities within Standardizations in Chain Restaurants; A Product Package—Twenty-two Schools; How to Educate Government and Mortgage Bankers about Dollar Value of Good Design; The Five Environmental Senses and Learning; The United States Buys from the World; The World Buys from the United States; Project Cost Control.

In addition, Esthetics for Tomorrow's Cafeteria; Case Histories for Designing Storage Systems; Symbols, Graphics and Communication; The Contractual Phases of Contract Design; Revolution in the Classroom; Coordinating Office Design to Office Procedures; Does Luxury Improve Hotel Profits; Revo-

lution in Bath, Lavatory and Washroom Design; Leasing, A New Avenue in Contract Furnishings; Clinical Psychology and Environmental Influences; Remaking a Continent; The Artisan and Religion; Logistics and Mass Feeding; The Unspoken Acusations-Ethics & Survival; A Designer Looks at the Office; New Educational Needs: How Acoustics Affect Environmental Planning; The Real Estate Developer and the Designer; Business Management and Design; Hospital Function and Good Design; Products and People; The Values of Illumination; What the Interior Designer Should Know about Technology; The Sales Power of Good Design; The Employer Looks at the Design Graduate's Training.

Exhibitors will include tenants at the Mart and the following firms at McCormick Place:

Acme National Refrigeration Co.; Allied Chemical Corp.; Alma Desk Co.; Art Steel; Arundell Clarke, Inc.; Athol Manufacturing Co.; Aurora Steel; Beautycraft; Bentson Manufacturing Co.; Bianco Manufacturing Co.; Blodgett Uncrated Furniture Service, Inc.; Brunswick Corp.-Commercial Furniture Div.; Burlington House Fabrics; Burlington Industries-Goodall Fabrics; Cepelia; Chemstrand Co.; Clarin Manufacturing Co.; Commercial Carpet Corp.; Cramer Industries, Inc.; Richard Draper Associates; Durkan Carpet Co.; Elite Lighting; Emeco Corp.; Falcon Products; Fiberesin Plastics Sales Co.; Finesse Originals; Fixtures Manufacturing Corp.; Formica; Forth Smith Plywood; Franciscan Fabrics; Fritz Hansen, Inc.

Also, General Electric-Laminated Products; General Fireproofing Co.; Gladwin Plastics; Gregson Seating; Habitat, Inc.; Hanseatic Furniture; Howe Folding Furniture, Inc.; Interstate Industries, Inc.; Jansko; Joanna Western Mills Co.; Kessler Industries, Inc.; Lakeside Furniture; Lewis Carpet Mills; Magna Furniture Co.; Marble Industries; Marden Manufacturing, Inc.; Marlite-Div. of Masonite: John Mascheroni Furniture; Gene McDonald; Milium Div., Deering Milliken, Inc.; Bob Mitchell Designs; Monarch Furniture Co.; National Plastic Products-Div. of Nevamar; Parkwood Laminates, Inc.; Patterson, Flynn & Johnson.

In addition, Rancocas Fabrics; Rock-

FOR CONTRACT!

NEW IN ALUMINUM FROM MEADOWCRAFT!

The look is bold and masculine . . . yet the weight is light! These handsome Meadowcraft contract chairs for institutional or residential use are sturdy extruded aluminum, giving amazing strength without additional weight.

Adaptable for use anywhere, the robust chairs are particularly excellent for men's grills, club or card rooms, directors' rooms, and offices. The springconstruction seats and backs are upholstered in durable, yet glove-soft, expanded vinyl.

Choose from twelve distinctive hand-rubbed, antiqued frame finishes and team with one of the pedestal base tables shown here or any table of your choice ... on the tables shown, you may select either slate or popular Marblecraft tops in a variety of sizes.

To view Meadowcraft, visit our showroom in the Decoration and Design Building, 979 Third Ave., New York City or for a complete catalog of Meadowcraft designs, write Birmingham Ornamental Iron Company.

For information on ZE PEL, write Du Pont Dyes & Chemicals Merchandising Office at 350 Fifth Ave., N.Y. Phone 971-4628.

Better Things for Better Living . . . through Chemistry

There's a Taverne in the Town...and Astra Chairs

What you see in Rohde's attractive Taverne Bar, Madison, Wisconsin, are no ordinary chairs and bar stools. These are Astra chairs — spacious, heavy and handsome — sturdily built from solid northern hard rock maple - hand-pegged, hand-wedged, steel-pinned to give them ruggedness beyond compare. Astra has been making a whole fleet of Early American styles since 1905 — including Admiral's, Captain's, Mate's, Commodore's, Mariner's, Pilot's and others. Many are still in use after 25 years. If you're interested in replacements, or are planning a new installation, see our brochure. Besides adding new styles, we've even improved some of our old favorites.

ASTRA BENT WOOD FURNITURE CO. 75 Maple Street, East Arlington, Vermont 05252

The hallmark of quality seating since 1905 · Showrooms in principal cities.

We want your carpet business. We think we're deserving of it!

There are no more sophisticated groups in the nation today than Decorators, Designers and Architects; and you—as a member of any one of these groups are fully aware of the importance of quality. Hence, when quality is inherent in every price category, assignments are that much easier to fulfill. And hence leading members of your profession find "the wonderful difference is Downs." Downs quality, of course. So, whether you call on our Contract Carpet Division for woven or tufted constructions . . . to match existing tones, textures and designs . . . or ask us to create exclusive designs for or with you . . . or select patterns from our existing commercial carpet stocks . . . depend on Downs for quality; and you can depend on the extension of your own good name and judgment!

YOUR INQUIRIES ABOUT CARPETING FOR PUBLIC AREAS WILL RECEIVE OUR IMMEDIATE ATTENTION ... WRITE US TODAY!

Britannia – British Colonial

Furniture from Simmons

Captures the intrigue and adventure of old Bombay

Distinctively different, Britannia furniture demonstrates uncommonly good taste and value with an adventurous Indian flair. It's finished in rich pecan. Heavy brass hardware offsets its delicate lines and at once gives your rooms a colorful, brash character. Rooms with Britannia do more than sleep your guests, they entertain them.

But your guest rooms demand more than imaginative styling—you need stubborn furniture that won't give way under the strain of luggage tossing travelers.

Simmons craftsmen still build furniture like the masters of the Chippendale era. The drawers, for example, have only hand-fitted, dovetail joints. It's the only way to build sturdy furniture that gives you good value for every farthing.

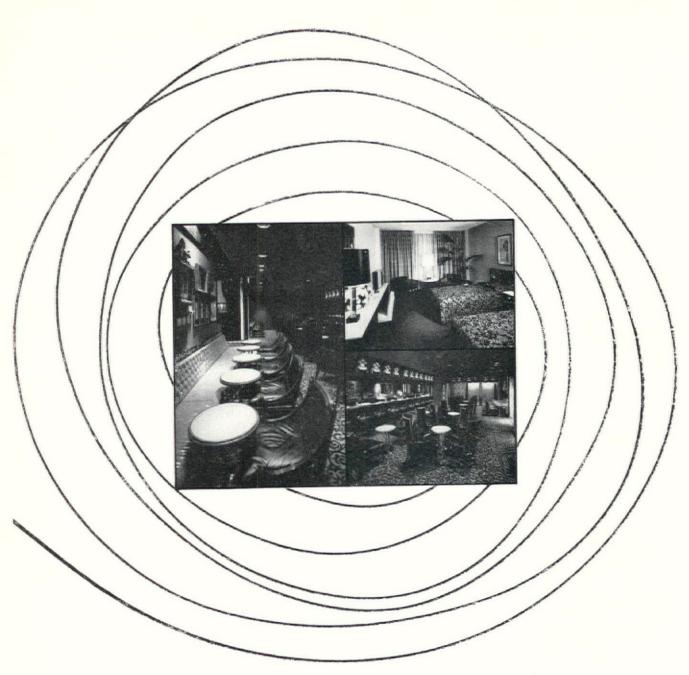

Top surfaces are protected by a high-pressure Melamine laminate. It's a standard bit of added protection against guests who get a little rambunctious.

Again, Simmons demonstrates that good taste and practicality are thoroughly compatible in fine furnishings for heavily traveled hotels and motels. To complete the picture, add Beautyrest mattresses and assure the best night's rest for your guests.

We offer the CFA Plan, our own American Acceptance Program, Extended Terms Plan, and Leasing Program to suit any financial requirements.

JOHN STUART INTERNATIONAL

CONTRACT DIVISION OF JOHN STUART INC.
PRINCIPAL OFFICE AND SHOWROOMS, 205 EAST 58TH ST., NEW YORK 10022

SPECIFICATIONS OF ORCCO SUN & SHADE OUTDOOR-INDOOR CARPET

A. MATERIAL CLASSIFICATIONS

1. Carpeting

Carpeting shall be Orcco Sun & Shade Outdoor-Indoor Carpet made with Herculon* Polypropylene Olefin Fiber as manufactured by Orcco Industries, Inc., Los Angeles, California.

2 Fiher

The polypropylene olefin fiber shall be of approximately 15 denier and shall be an extrusion pigmented fiber sufficiently ultra violet stabilized to withstand exposure to elements without excessive deterioration.

3. Construction

The carpeting shall be manufactured by the non-woven process, needle punched into a fabric reinforcement weighing not less than 2.8 oz. per sq. yd. of woven construction of continuous filament polypropylene olefin yarn. Carpet shall have a back coating of weather resistant synthetic resin compound with no "loading" materials.

4. Fiber Content

Carpet shall contain a minimum of 22 oz. of 15.0 denier virgin polypropylene olefin fibers.

5. Carpet Weight

Carpet shall weigh not less than 32 oz. per square yard.

6. Gauge

Carpet shall maintain a thickness of 0.20".

B. PROPERTIES OF CARPETING

1. Color Fastness

Carpeting shall be fade-resistant and shall show a rating of "good" after exposure to 500 standard Fadeometer hours (testing as specified in Federal Spec. 5660 of CCC-T-191b).

2. Abrasion Resistance

Carpet shall have a minimum wear index of 5,000 revolutions as determined by Physical

Test Method BN-8-2 of the Ford Motor Company. The end point or wear index shall be determined by abrading the sample until the reinforcement cloth is visible.

3. Mildew and Rot Resistance

Satisfactory resistance to mildew means that the carpet shall not support bacterial growth when buried in soil inoculated with microbial life. (Test Method 5762 of Fed. Specs. CCC-T-191b).

4. Insect Resistance

Carpet shall exhibit complete resistance to moths or other harmful insects. It shall have a rating of "resistant" as defined by test procedure ASTM-D116-55T.

5. Flame Resistance

Carpet shall meet the requirements of the burning rate test of the Federal Aviation Agency and the flame resistance test of the Government Service Agency. (Test Methods — F.A.A. Release # 453 and G.S.A. Attachment "B", Item #3.

6. Shrinkage

Carpet shall not shrink more than 1.0% in either length or width directions. (Test Method — CCC-T-191b, G.S.A. Spec.)

C. INSTALLATION

1. Area Preparation

All surfaces to be covered shall be clean, firm smooth and free from oil, grease or way Rought spots shall be smoothed off wher necessary and all joints and cracks filled.

2. Installation

In good workmanship and in accordance wit practices of the trade as spelled out in the i struction manual prepared by the manufacture

3. Cements and Tapes

These materials to be of the brand and quali recommended in the installation manual. As substitution must be of equal quality.

Suggested Architectural Specifications

Sun & Shade outdoor-indoor carpet as manufactured with Herculon* polypropylene olefin fiber by Orcco Industries, Inc., Los Angeles, California, shall be furnished and installed on this job. Specified product must be provided in a new and sanitary condition. It must consist of quality material possessing the physical advantages warranted by the manufacturer.

Samples - Prior to installation the architect shall be furnished with three (3) 9" x 12" samples of Sun & Shade carpet for approval. Each shall be labeled to show manufacturer's name, color, and job location.

Places like the Century Plaza Hotel in sun-drenched Los Angeles, for instance. When you're building the world's most beautiful hotel, you don't settle for anything but the best. That's why every Century Plaza guest room luxuriates in draperies lined with Lite-trol, the Roc-lon lining that gives 100% blackout, while it improves air conditioning efficiency and acoustical control.

Roc-lon linings and Roc-lonized selflined fabrics do so much more than they're asked to. Which is why they are asked to stay at all the best places: hotels and motels like Sheraton, Hilton, West-

ern International, Howard Johnson, and Holiday Inns. Plus-performance features include insulation against heat and cold, protection against sun rot and fading, exclusive "Rain-No-Stain" barrier against moisture, condensation, water marks and stains. All available in decorator coordinated colors, with built-in fire retardance to meet every building code. No wonder these Rockland products are the favorites for contract use. Next time—specify them by name: Roc-lon and Color-lon insulated linings, Roc-lonized self-lined draperies and Roc-nite and Lite-trol room darkeners.

Hardwick . . . the new pro in the pro shop

When Miami Valley Country Club in Dayton, Ohio, decided to carpet the pro shop, they insisted it be with materials that could really take a beating (particularly from spiked and muddy golf shoes). But it had to be tasteful and attractive enough for adjoining club rooms as well. That's why this three frame All Wool Wilton by HARDWICK was the logical choice. Background is predominantly golf course green. Highlights are random lines of black and gold.

With this installation at Miami Valley — 600 lineal yards in all — HARDWICK proves once again that contract carpeting can be elegant as well as durable and care free. Color, fiber and pattern selection are limitless, and HARDWICK customers get individual attention plus on-time delivery. And the only thing under par is the price.

Send \$2.00 for Hardwick's new "Carpet Selector" ... In Hardwick's "Selector" are ACTUAL CARPET SWATCHES showing today's newest and most popular contract qualities to help you demonstrate carpeting dramatically, professionally and effectively.

LA FRANCE FABRICS

division of **Riegel** TEXTILE CORP. SALES SERVICE CENTERS IN 23 PRINCIPAL CITIES For years now, contract fabrics have been so firesafe, so mildew resistant and so easy to clean that you could install them and ignore them forever.

Trouble is, they've been so ugly you couldn't.

INTRODUCING A NEW CONCEPT IN CONTRACT FABRICS: FABRICS YOU CAN'T IGNORE BECAUSE THEY'RE BEAUTIFUL.

For the first time, original hand prints by Paul Kaiser are available in 17 different Rovana Verel fabrics, in 150 different patterns, in 5 standard colors, or in any custom colors you want.

Any colors.

You still get a fabric that's firesafe, static-safe, workroom-safe, abrasion resistant, mildew resistant, sunrot resistant and soil resistant; a fabric that's easy to clean or wash and has no elevator action; and a fabric that hangs in soft, graceful folds.

The only difference is that you can live with it.

If you'd like a sample book and all the particulars right away, write away to our national sales office in Miami.

Our name is Paul Kaiser. We wholesale, convert, hand print and import decorative and contract textiles.

Rovana Verel is one of them.

PAUL KAISER ASSOCIATES, INC.

Now, with Modu/Floors® you pay only for the carpet you need, and you get exactly what you need: size, color, fiber, density, backing, cushioning. And, at lower installation costs.

Forget carpet by the yard. This is carpet by the job. For the job. To do the job. Any size job.

It took CCC—the creators and manufacturers of Densylon—to come up with this concept: Carpet, tailor-made to your blueprints. Carpet constructed to your specifications to meet your traffic, acoustical, aesthetic, humidity, maintenance, budget requirements.

With Modu/Floors you order carpet by the yarn. Take your pick: Wool Six®, Acrylic 73®, Nylon 360-D®, Polypropylene 8®—whichever works best for you in a given area, for looks, wear, maintenance, price.

But that's only the beginning.

With Modu/Floors, you order carpet by the yarn woven to the exact density you need. Lower, less costly for low-traffic areas. Tighter, denser for high-traffic areas. And to the pile height you want. With the backing and cushioning you want. To the modular width you need.

Think what this means!

It means more carpet for your dollar because there's no waste. It means you can put carpet in areas you couldn't afford to before. And it means better design for your dollar because there are no limits. You're not locked in to a fixed pattern or weight or price of finished goods and forced to make the best of possible compromises.

You can have the same yarn, in the same color in different constructions, and get the same look with different wear in corridors, rooms, lobbies, entrances, offices. Or you can have the same texture in different yarns and different colors. You can use fibers single, double, triple. Mix them or match them.

In short, you can design your own carpet. At no extra cost. And that's the best thing you've had going for you since carpet!

It took foresight, and the facilities to operate this way. It took the development of new machinery, special fibers, backings, cushionings. And it takes a skilled space engineer to analyze your needs, suggest solutions and service your job. Before, during and after installation!

Only CCC is set up to do it. Only CCC—the largest exclusive manufacturer of commercial carpet in the country, with the largest sales force in every region of the country (102 men strong!)—could do it!

Modu/Floors just saved a client 2,204 yards on a 21,000 yard installation. 10%!

Sounds good to you?

Hold everything until you get the full story. Mail coupon now.

AIRWALL DIVISION 8140 E. ROSECRANS AVE., PARAMOUNT, CALIF. 90724

AIR WALL'S... provide unlimited design flexibility for meeting & dining rooms or educational and assembly areas.

* RETRACTABLE WHEELS: A retractable wheel assembly has been designed and is now available for AIR WALL panels. The wheels allow the installer to roll the panels into place reducing most of the lifting usually required. The panels can be installed, relocated or stored easily...quickly! Especially recommended for 4' wide panels.

CONSTRUCTION: The wheels are spring loaded and mounted in the base of each panel, approximately 1½" from the edge (2 wheel assemblies in each panel). They are set in the base with screws and the adjustable tension is set sufficiently to raise the panel clear of the floor when the panel is deflated, thus allowing the panel to be rolled freely. When the panel is inflated, the air pressure in the cap forces the panel downward and the wheels retract into the base.

AIR WALLS are completely portable...may be moved at will, in a matter of minutes...now moved even more easily with the New Retractable Wheels. No floor or ceiling tracks are required. Just set each panel in place, add air and the patented AIR WALL telescoping cap is raised firmly against the ceiling.

AIR WALL'S tight seal at the floor and ceiling levels and unique construction features offer a sound control quality never before possible in a portable wall. Available in a wide range of facing finishes to provide fresh and dramatic interior decorations. AIR WALLS are economical—require no installation or erection costs. Ideal for Hotels, Restaurants. Offices. Funeral Parlors, Schools, Churches, Commercial Buildings, etc.

"Just leave 'em out here. They're J. R. Clark - guaranteed five years anywhere!"

It's true! Once these casuals by Clark are out of the carton they're the most care-free furniture that ever graced a patio in any climate — or a profit statement either! A fearless guaranty assures rust resistance for at least 5 years. Zinc plated, chromated, and epoxylated (how about that!). And finished with a durable baked enamel.

One of the most important selling values you can offer your customers is this "no nonsense" guaranty coverage of the *Ames Aire* and *Rid-Jid* lines. Plus features including the sturdy stainless steel or cadmium-plated hardware... the weather-defying finishes... the resil-

ient vinyl cord that laughs at rain, stain, and fading . . . the safety-tempered glass on table tops.

Here are casuals designed in good taste for year round use. Whatever the weather, the climate, the country, both Ames Aire and Rid-Jid will serve your customers (and theirs) with long-lasting distinction. Write for the full-color brochures available on both of these great Clark collections.

Commercial carpets
of 100% Herculon*
Olefin Pile
by Masland

C. H. Masland & SONS

C. H. MASLAND & SONS . Carlisle, Pa.

WHY CARPET?

Extensive studies by the American Carpet Institute show that the use of carpet in all types of commercial installations not only enhances the overall appearance and comfort underfoot of an area, but is practical and more economical than hard surface coverings as well.

- · Carpet cuts noise
- · Carpet keeps floors warm
- · Carpet is easy to maintain
- · Carpet reduces maintenance costs

WHY MASLAND?

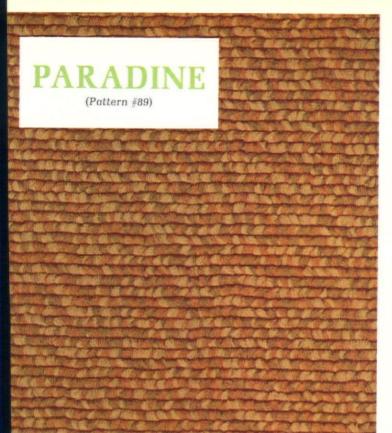

Through years of experience, Masland holds a position of leadership in the design and manufacture of all types of carpet for commercial use. A large staff of experts at the mill in Carlisle, Pa. is ready to solve any problem related to a particular installation, no matter how complicated. In addition, Masland has the following men in the field (see back cover for addresses):

- Six commercial carpet specialists, two in each major geographical section of the country.
- Forty-four Territory Managers, each thoroughly trained in the specifics of commercial carpet installations.

Herculon is an olefin fiber with characteristics that make it eminently suitable for commercial carpeting.

- Herculon is chemically inert and the least moisture-absorbent of all fibers. Spilled liquids and solids tend to stay on the surface of the carpet where they can be readily removed. Static-free quality cuts down on airborne dust and dirt held in carpet.
- Herculon is a strong, sturdy, resilient fiber. It offers excellent resistance to heavy foot traffic.
- Herculon is a solution-dyed fiber and, as a result, the colors will not fade. In the manufacturing process, the fiber polymer and the dyes are mixed while still in solution, so that each color actually becomes part of the molecule itself. Therefore, not even a strong bleach can remove the color.
- Herculon is virtually static-free. Irritating shocks after walking on carpet are nearly eliminated.
- Herculon is non-allergenic, mothproof, mildewproof.
- The low specific gravity of Herculon assures more actual yarn per pound and more pile per square yard.

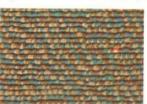

WHY HERCULON?

ique Gold Tweed 353 (Large swatch shown actual size) if first woven carpet of Herculon. Velvet construction in a tight nd-wire construction. Especially recommended for heavy-traffic as such as corridors, stairs, lobbies, etc.

Circle No. 66 on product information card

"Oh, I beg your pardon. I was told to take a look at the new harpet of cerculon. I mean the new carpet of Herculon."

Does carpet of Herculon* olefin fiber stand up under coffee breaks, conferences, high heels and traveling salesmen? Yes. Carpet of Herculon is exceptionally long wearing even under the heaviest traffic. Lab and "in use" tests show that Herculon matches nylon in long wear and abrasion resistance. And is far more abrasion resistant than acrylics or wool.

Does carpet of Herculon need pampering like secretaries?

No. Herculon is the easiest-to-care-for, easiest-to-clean of all carpet fibers. It's so chemically inert, so moisture resistant, stains and soil tend to stay on the surface until they are wiped clean. Reduces maintenance costs to a minimum.

Do clients have to be rich to install carpet of Herculon? No. Herculon can save them as much as \$3 per square yard below competitive carpet fibers of comparable bulk and construction.

Does carpet of Herculon look like your clients are rich? Yes. It looks like a million dollars. In beautiful colorfast solids, multi-

colors and patterns. And a pile so densely packed, they'll find it hard to believe this is contract carpet. Of course all carpet of Herculon is practically static-free.

Is carpet of Herculon the most brilliant advance in contract carpet today? Yes. And It's available at the best carpet mills in the country.

Who is the young lady in the picture? Chairman of the Board. And for anything else you want to know about commercial carpets of Herculon or for a free copy of the new Architect/ Designer's Guide to Carpets of Herculon, simply call, write or visit Fibers & Film Department, Hercules Incorporated, 380 Madison Avenue, New York, N.Y. 10017. OX 7-0010.

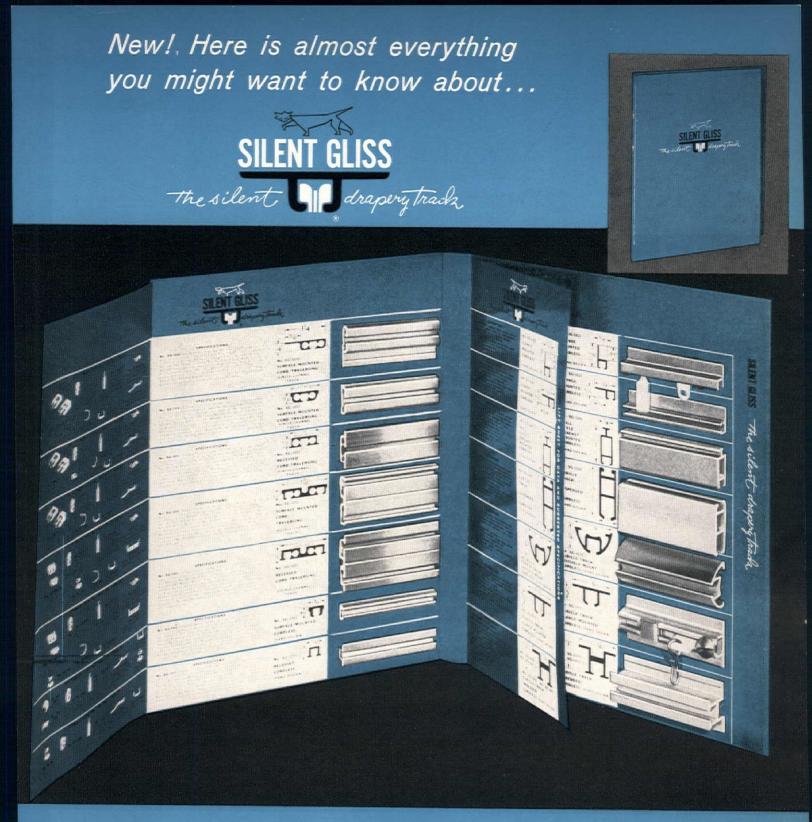

Is there a carpet that has all the answers? Yes.

Since when? Since Herculon. The No. 1 polypropylene fiber for contract carpets.

Registered trademark of Hercules Incorporated, Wilmington, Delaware for its olefin fiber.

Texfoam folds, rolls, bends, twists to make it easy to move - on the sales floor and in deliveries.

Texfoam is genuine latex foam. Lighter than old-style mattresses. Yet hefty enough to stay in place. With no springs, wires and ties, it's no problem to deliver. And although it never needs turning, it's completely reversible. Easy to flip over on a bed. Easy to move anywhere.

Permanently sterile-clean. Fresh, cool, hygienic ... actually bacteria-retardant. Texfoam won't mildew or get to smelling musty. And it's completely non-allergenic. All good reasons why Texfoam sells easy, moves easy. For more good reasons, call your BFG representative. Or write The B.F.Goodrich Company, CPMD, 500 South Main Street, Akron, Ohio 44318.

Always a wise rule: divide ... and conquer!

It's good, sound strategy in decorating, too. Bare, boxy rooms take on a fascinating new character when they're divided by System Cado's telescoping poles. Not only can these create a hallway or foyer, but they offer a wealth of handsome storage area as well. The effect is decorative. airy, open...still spacious...but, oh, so much more interesting. System Cado's woods (rosewood, teak, walnut, or light oak) and wall components work beautifully to divide dining and living areas, dens, bedrooms, almost any room. Use them free standing or against the wall. But do use them.

low do you carpet an art museum?

We go to wool instinctively..."

The largest museum to be opened in nost 25 years made its debut on March, 1965; it is officially known as the s Angeles County Museum of Art.

Approaching the Museum, the visitor es three pavilion-like structures arnged on a central plaza. Entering the ncipal structure—the Ahmanson Galy—he comes upon the museum's perinent collections.

Absorbed in the art, it is doubtful ether the visitor is consciously aware the pure wool carpeting or the furnie.

Which is as planned.

n fact, to accomplish this intended act, well over two years of work went the selection of the carpeting and er furnishings before final decisions to made.

Central Questions

How was the carpeting chosen? Since the function of the museum is display the art, interior decoration conceived in terms of setting off the more richly. Understatement, sub-y, and elegance were the key words ne minds of the Interiors Committee.

ne of the Committee's deepest cons was the relation of the carpeting other furnishings to the varied colons in the main galleries. The carng remains constant, but exhibits ge, and so colors, shapes, and lighted lighted the carpattern flexible enough to fit in with diversity — yet able to maintain a acter of its own.

developing the pattern, hundreds plors and designs were examined. e were subjected to fade tests, reflection tests, wear tests, damage tests, and various others. What eventually evolved was a design which took the theme of the museum's outside columns as a point of departure. Under-

neath the resulting pattern, the architectural motif still plays upon the consciousness — but with the greatest subtlety. Colors: a soft shade of charcoal on a background of bronze.

Of special interest was wool's response to lighting. A direct spotlight will be used for one exhibit, soft indirect lighting for another. But at no time may there be any reflection or glare from the carpeting. In making its studies and tests, the Committee concluded that no fiber came close to wool in diffusing light.

Exploring other fibers

"In most of our assignments, we go

to wool instinctively," says Mrs. Ruth Montanari, representing the design staff of Cannell & Chaffin, who coordinated and executed the interiors.

But while wool was an "instinctive" choice, the matter did not rest there — because the Committee explored the entire range of synthetics and blends. Hundreds of specially-prepared samples were evaluated. An example of the Committee's findings: it had been claimed that one of the synthetics rivaled wool in its ability to reproduce the true colors of the dyes selected. Checked out, the synthetic was found wanting.

Once the Committee's explorations were completed, and the patterns and colors were selected, it became apparent that only all-wool carpeting would fulfill the museum's multi-faceted requirements.

With this in mind, specifications for the carpeting in the main galleries, from Gulistan Carpet, Division of J. P. Stevens Co. Inc., called for:

> 2 Frame Wilton 2-Ply Pure Wool Pile 256 Pitch 10 Wire .290 Pile Height 50 oz. per sq. yd. Face W

50 oz. per sq. yd. Face Weight 77 oz. per sq. yd. Total Weight

"There was never any real doubt about wool," says Mr. Talmadge L. Reed, Chief of Museum Operations, "after we reviewed and considered the other fibers. We felt the relative value, in relation to cost, was far superior. And the elegance of wool carpeting fitted in with the county-wide feeling of achievement when the museum finally opened to the public."

1½ million visitors later...

In selecting carpeting for the Museum, there were practical considerations, as well as esthetic ones, that had to be taken into account. There were 10,000 square yards of carpeting to be installed. The carpeting had to be long wearing. And it had to be easily maintained: easily cleaned, colorfast, permanently mothproof, highly flame resistant, and not

prone to damage from burning cigarettes. How did the carpeting that was chosen measure up to these standards?

Since its opening, long lines of visitors, numbering well over 1,500,000, have walked across the wool carpeting in the galleries. In January, 1966 alone, 255,000 persons lined up for a view of Rembrandt's *Titus* when it was first exhibited to the public at the museum.

With all this traffic, the carpet has held up beautifully, according to Mr. Reed. And the Committee feels thoroughly confirmed in its choice of wool.

Carpeting outside the galleries

Turning to other areas, we find that the general museum offices and the curatorial offices were carpeted with a beige and white tweed carpeting. In the Members Room, a special carpet was designed for the museum.

In Pauley Hall, where museum receptions are held, there is an all-wool rug measuring 22.6 feet by 71 feet, allowing the elegant parquet floor to be seen around the outside edges. This posed a special problem, since the walls are hung with rugs and tapestries. To avoid any clashing, a camel's-hair tone was chosen for this rug.

"We chose the furnishings as those most likely to constitute the museum pieces of our time," says Mr. Charles Kratka, Director of Design of William L. Pereira & Associates, the architectural designers of the museum. "While we were, by necessity, limited by budget considerations, we do feel that some of our floor coverings do fit into this category, along with our Van der Rohe, Saarinen, Eames, and Knoll furniture."

"Wool is first choice"

Behind Mrs. Montanari's instinct for wool, she explains, "are many reasons ... wear, maintenance, acoustics, character, facility of expressing our theme, less trouble all around, more flexibility in dyeing...In just about every factor of selection, installation, use and wear, we just have a better time of it with wool."

"And don't forget static electricity Mr. Kratka says. "Where else but in a art museum do people shuffle alon keeping their feet in constant conta with the carpeting? We had to go to woo if for this reason alone."

Interestingly enough, the things the made wool the choice for the Los A geles County Museum of Art make it to choice for a wide variety of installatio — banks, hospitals, hotels, civic builtings, schools. Contract designers a specifiers in every field turn to wool "stinctively"—for the very best reasons

If you require information, technic aid, or assistance, contact Wool Carpe of America, 360 Lexington Avenue, Nork, N.Y. 10017. They will be pleas to help.

How we proved "Northport" carpet is as tough as a shoe sole-cleans up like new

We actually half-soled a shoe with it. Walked it for miles, through mud and rain, spilled food, gravel. It's positively amazing how Northport stood up-and cleaned up! The tightly packed, nubby loop pile of Philadelphia's Northport (with secondary Jute backing) is engineered for the tough jobs where economy counts. For supermarkets, hospitals, schools, motels, offices. For texture retention, resistance to static, easy maintenance.

> In contract carpets, the choice is

engineered to be tougher

primary carpet backing designed to meet grueling needs of the tufting industry

Who keeps making improvements on nature? Grace ... naturally!

Grace...naturally!
Who keeps improving on Grace? Grace...of course!
Now we've improved DAWBAC*. Why? Because carpet manufacturers needed a polypropylene primary carpet backing that could perform with ease under the grueling demands of the tufting industry.
DAWBAC* 3013HG is a combination of ribbon and multifilament fibers, woven with extra density. It performs brilliantly and is spectacular for the highest quality residential carpet offered today.

For the manufacturer, it is an improvement on nature!

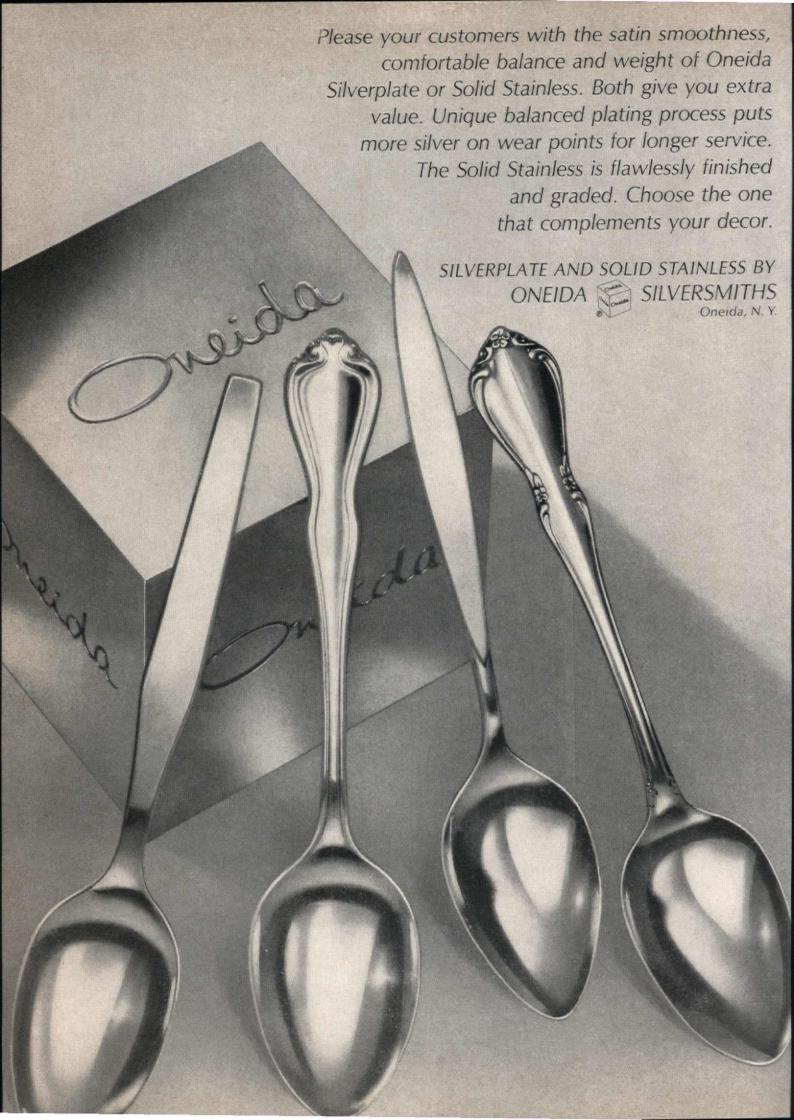

For the retailer, DAWBAC* means carpet that behaves better . . . it's more stable, has better tuft lock, and can be used on locations not previously suitable for carpeting.

It's simply better... because we engineered it that way.

The school that threw its doors open to wall-to-wall education with Carpeting of Creslan®

Estancia High School, Costa Mesa, California

Send for new Contract Carpet Report Estancia High School opened its doors—literally—to the new look in education. By choosing carpeting for their modern, open-classroom teaching areas. And by relying on Creslan luxury acrylic fiber to stand up to the hard wear of student traffic. The results? An atmosphere of spacious, unconfined quiet that pupils respect and respond to. In classrooms. Music rooms. The library. Even in the centrally located "study carrels" where

silence is essential. Carpets of Creslan soak up the sound of passing feet. Over 1,200 pairs a day. And they shed resulting soil with a minimum of maintenance. Carpets of Creslan are ideal in any area where wearability and ease of care are requirements. Creslan is a product of American Cyanamid Company, 111 West 40th St., New York.

If a carpet wants to kee a good front, it bettersta out with darn good back

How well a carpet holds up, often depends on what holds the whole carpet together. In the case of tufted carpeting, the primary back holds the whole carpet together.

Poly Bac is a primary tufting back woven of polypropylene yarn. It keeps tufted carpeting better looking, over a longer period of time than ordinary primary backings.

To begin with, carpeting made with Poly Bac can be shampooed as often as is needed. Since Poly Bac doesn't contain oils or lignins, there's no danger of unsightly stains (browning) coming through to mar the face of the carpet.

In addition, bugs and bacteria will have

nothing to do with Poly Bac. And that old problem of mildew causing the backing to rot, is no problem where Poly Bac is concerned. Even in below grade installations.

Finally, carpets tufted on Poly Bac are more stable. (Poly Bac is completely impervious to humidity, the major cause of carpet shrink or buckle.) Restretching is minimized.

So remember, no matter how much (or how little) tufted carpeting may cost, if it wants to keep up a darn good front, it better start out with a darn good back.

ACOUSTICALLY SPEAKING . . . Conventional carpets installed with quality Allen cushions add 104 to 178% more sound absorption than "Rubber Backed Carpets" or carpets without

padding.

4 MORE REASONS WHY ARCHITECTS AND DESIGNERS PREFER CONVENTIONAL CARPETS INSTALLED WITH

RUG CUSHIONS:

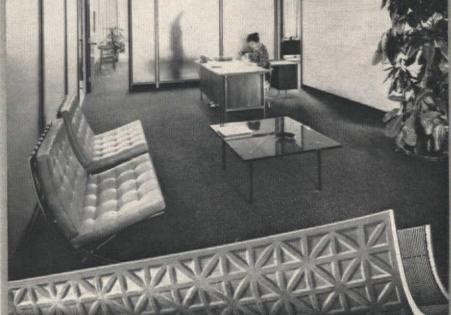

- 1. WIDTHS-Unlimited carpet assortments in 12' and 15' seamless widths mean fewer seams to pull apart in heavy traffic areas; lower installation and maintenance costs.
- 2. ECONOMY . . . LESS WASTAGE-A good installer pre-cuts and fits the Allen cushion to keep wastage at minimum levels.
- 3. LOWER FREIGHT COSTS-Handling and shipping of separate carpet and Allen cushion assures minimum in-transit costs. Savings in freight run as high as 40%.
- 4. REPLACEMENT—Conventional carpet and Allen cushion can be readily moved or shifted if required. Damaged or worn areas may be replaced in sections as needed without waste or floor damage.

STILL ANOTHER PLUS—Conventional carpets installed with Allen Rug Cushion provide more for your money in style and design as well as underfoot comfort. You can choose from the designs, fibres and textures of over 2,000 separate carpet looms . . . with the additional choice of 41 JOB-ENGINEERED CUSHION MODELS ALL MADE BY ALLEN.

*HERE'S CONCLUSIVE PROOF

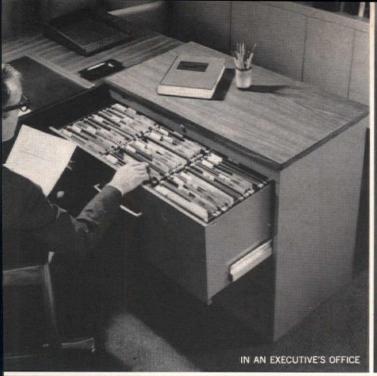

This chart compares the noise reduction coefficient (NRC-a measure of sound absorption) of "rubber-backed carpet"; commercial grade carpet installed without padding; and commercial grade carpet installed over representative Allen rug cushions. (The higher the number the greater the sound absorption.) The results are clear. Quality Allen Cushions add substantially to sound absorption values!

Oxford Lateral Cabinets fit beautifully where other file cabinets won't

Because the shallow side opens out, Oxford Laterals take up less than three feet in depth, even with the drawers fully extended.

Yet they provide up to 21% more filing capacity per drawer than the typical front-opening cabinet. Every drawer accommodates a wide variety of filing arrangements. And every drawer takes Pendaflex® Speed Filing, with sliding folders that can cut filing time in half.

All Oxford Laterals have rigid drawer fronts (rather than "slide-up" fronts.) The drawers are smooth-operating, won't jam or squeak. Construction throughout is exceptionally solid.

Oxford Lateral Cabinets come in a wide range of models, plus stack-on units for storage and shelf filing. They are available in 11 standard colors, plus two-tone combinations, and in oiled walnut—or, on special order, any color you specify. And you can dress them up with wood-grained tops.

For full information write Oxford Filing Supply Co., Inc., 71-01 Clinton Road, Garden City, New York 11530

97 years old.

First produced in 1870, this chair achieved its true recognition when it was used by Le Corbusier at the 1925 Paris International Exposition of Decorative Art. Part of the permanent collection of the Museum of Modern Art in New York, it has been called "one of the great designs of the Industrial Revolution." Please note, this is the original model . . . not an imitation. Write for details. Available for prompt delivery.

Now that the building's finished, will you leave your client <u>nameless</u>?

Of course not. You'll get all the proper letters up there — and they'll be a very handsome, integral part of your design!

Won't they? Specify Knight 3-dimensional letters, and be sure. We'll cast in solid bronze, brass or aluminum. To your design. Or we'll help you create a new letter. Or you may select from our huge variety of styles, sizes and finishes.

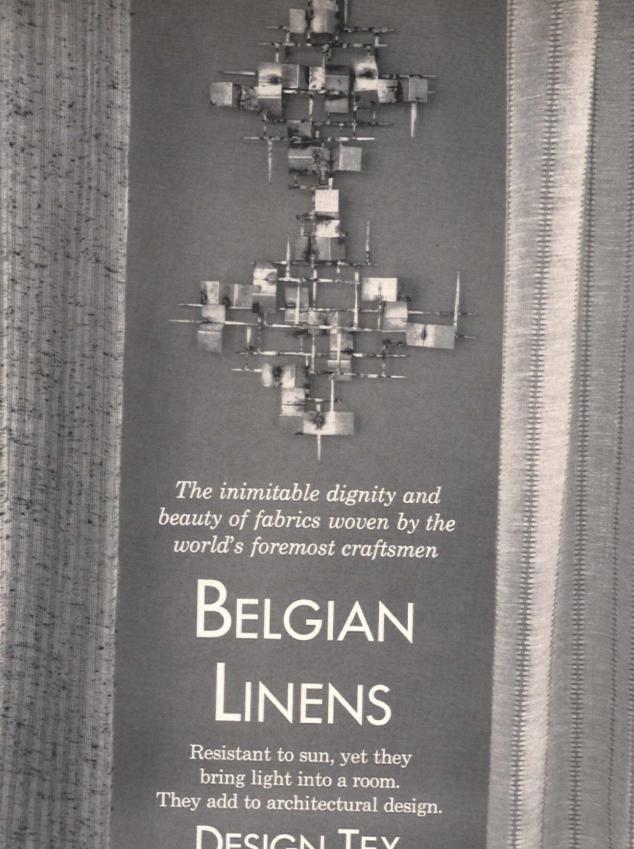

We'll tell you this: your client's name will be seen on your building. And admired. For years and years to come. Which, when you think about it, will give you a lasting benefit, too.

Why not get your free Knight Catalog now?

The Koroseal upholstery book never runs out of swatches.

It's got to be the most useful swatch book in the business.

Here's how it works:

Cut off as many

little swatches as you need from a big swatch. To paste on your layouts. To impress your clients.

As soon as you've used up a big swatch, in pops a B.F.Goodrich Koroseal salesman to replace it.

Maybe it won't happen that fast for you. Maybe you'll have to call him up and say something like "Get over here with a swatch of Fargo in Daisy 2427-59, or I'll call What's his hyde." And that'll pop a Koroseal swatch in your book in no time at all.

Say one of your clients is some big executive who wants a red rug on his floor and furniture upholstered in green.

We've taken all our colors and all our patterns and coordinated them so that you can find what you're looking for instantly.

In our book, you'll find Green Gage in our Sturbridge pattern, next to greenish gold in Dauphine, next to greenish bronze in Fargo, next to greenish gold in Linwood, next to greenish Natural in Tweed, next to greenish gold in Lancia, next to greenish grape in Sterling, next to greenish Loden in

Tweed, next to greenish Topaz in Sorrento, next to greenish Oro in Tuscany, next to Moss in Tweed,

next to Lynn Green in Sturbridge, next to Ivy in Pelham, next to greenish Linden in Tweed, next to greenish Lichen in Laramie, next to Avacodo in Pelham, next to sap green in Laramie, next to Sprout in Fargo, next to spring green in Korvel, next to Empire Green in Korveau, next to green in Tanglewood, next to olive in Sterling, next to olive in Super-X, next to a lot more we don't have room to mention.

Now, after you've got the right Koroseal green to go with that red rug, suppose you find your big executive really wants blue upholstery.

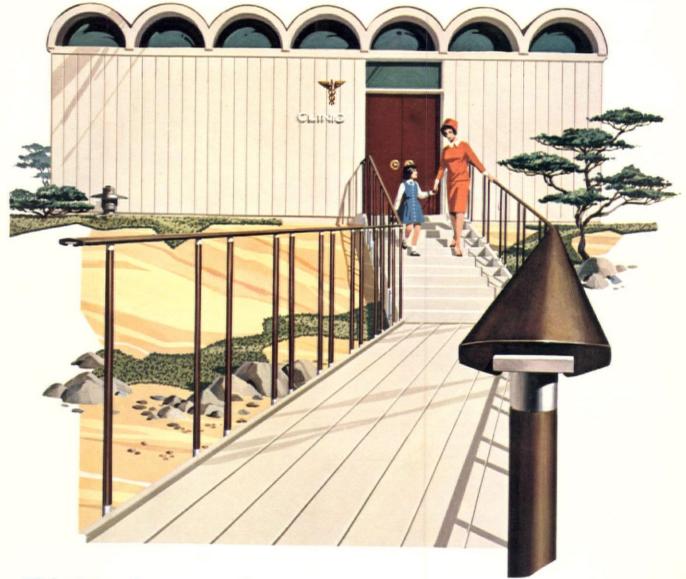

No problem. We've got bluish Cornflower in Sorrento, next to Blueberry in Tweed, next to French Blue in Tanglewood, next to

It's all in the book. The book that never ends.

To get your copy, call your nearest B.F.Goodrich representative, or write B.F.Goodrich Consumer Products, Department K-1, Akron, O. 44318.

Take another look at the four new patterns in Textolite® decorative surfacing. See how closely they resemble leather? Well, they're supposed to. In fact, we even call the patterns "leathers": White Leather (2250N), Black Leather (2260N), Olive Leather (2255N), and Brown Leather (2269N).

Now these surfaces may look like the Real McCoy. But they sure don't act like it. When they get dirty, a damp cloth restores their good looks. And they resist scratching, scuffing and staining. But then, most highpressure plastic laminates do.

What's different about these is Hi-Dur, Hi-Dur is a special manufacturing process involving special ingredients. It's the reason why our new leather patterns have colors that are richer, deeper, and clearer than those you've come to expect in ordinary laminates. And why they have twice the wear resistance of ordinary laminates.

But don't take our word for it. Write for samples and see for yourself. One more thing. Textolite with Hi-Dur doesn't cost any more than ordinary laminates. It's just worth more—as anyone can plainly see.

Give your interiors The Marlite Touch.

Add a striking new dimension to your interiors with Marlite Textured Paneling. Now available in the four exclusive patterns shown above!

Marlite has texture you can actually see and touch. Plus a soilproof plastic finish that resists heat, stains and moisture—wipes clean with a damp cloth.

Marlite has the background to make your interiors more distinctive. Choose from these four new Textured Panels or the more than 70 colors, patterns and designs in the complete Marlite line. Consul Sweet's File or write Marlite Division of Masonite Corporation Dover, Ohio 44622.

What's come over steel?

The new Lyon concept:

QUIET STRENGTH...WITH FLAIR!

You're looking at the forerunner of what others *may* offer in steel furniture...later! Every inch is *totally* new; freshly designed to provide greater strength, soundproofing and elegance per dollar than ever before!

Lyon desk tops are sturdily constructed of two layers of steel, the lower layer continuously ribbed for maximum strength. We made them the main structural member, from which all other members stem. Result: the greatest beam and torsional strength in the industry.

Back panels are double wall type, with honeycomb filler for complete soundproofing. Lyon pedestals are continuous-welded tubular structures which completely gird the front opening. These too, are *fully* sound proofed. Our exclusive "lock-in-top" feature controls *all* drawers, provides for interchangeability of pedestals.

We've sculptured our steel carefully, for less massive appearance, more leg room. Complete serenity is provided by double-walled drawers, lubric plastic glides, and rubber bumpers. To top it all off, there's a choice of 9 lustrous 100% acrylic finishes that will last with the furniture.

Can such features come without a premium price? Certainly! See your Lyon office furniture dealer! Ask him about the "unprecedented 7*" Lyon advantages.

HOW AMERICA...

A special feature section of top-flight installations, representing the work of contract designers all over the country and illustrating how America WORKS, how America SHOPS, how America BANKS, how America STUDIES, and how America TRAVELS.

Of the eight projects shown in the first section on How America Works, six will be selected by a committee of officials of the National Stationery & Office Equipment Association and reproduced at the association's show in Dallas, Texas, this March. The editors have attempted to show some of the best work in each of the contract fields mentioned, basing their selections on the functional quality of the design and planning of the project, as well as new and significantly original solutions to problems of design, budget, and client preferences. The selection, however, is not intended to imply that this is the only excellent work in the areas covered; there are plenty of other good examples, many of which we plan to publish in subsequent issues this year.

THE CLASSIFIED DIRECTORY which follows How America . . . is designed to give the contract designer, specifier, and furnisher the broadest possible range of sources of goods and services in every category of importance to contract design, planning, and furnishing. The Directory leads off with a master list of manufacturing sources, along with their addresses and phone numbers. Following the master list, there are sixty-eight product categories, to tell the reader Who makes What, complete with sub-codes for easy reference. Also included are lists of important showrooms throughout the country, mart buildings, trade associations. The Directory is comprehensive and impartial, including all companies active in the commercial/institutional field, whether or not they use this publication as an advertising medium. This Directory is intended for your use throughout 1967; there will be no new Directory until January 1968.

HOW AMERICA WORKS

OFFICES OF HOWARD SOCHUREK Roni Yhap, Interior Designer

How does one design an office for a photographer when that office has to include a place to receive clients, a place to edit color transparencies, space to store a multitude of complicated equipment, a place to display a collection of antique Asian sculpture, and most important, a showroom to display the photographer's published work? Roni Yhap found the answer for famed photographer Howard

Sochurek. Working with architect Win Hoffman, the designer made a careful analysis of the available space, then planned accordingly. The furniture is clean, plush, custom-designed except for file cabinets, and carefully understated, as are the other furnishings, so as not to compete with the sculpture and photographs. Roni Yhap designed light boxes for the photographs, sculpture ledges for

the statuary, and a special desk for l Sochurek that has a lift-up top w special lights so that he can scan a hu dred slides at a time; and these are j some of the unique features of the f ished office. Colors are predominantly ne tral: beiges, bronze, and walnut, w khaki-olive and bright orange used spa ingly. The reception room is muted w beige grasscloth walls in sharp contr

b the private office, which has white extured walls, a lush orange area rug, nd bright lights, so that attention is rawn to the photographs and sculpture. Suppliers: Furniture — custom-designs y Roni Yhap; files—Steelcase. Carpeting — Ernest Treganowan. Fabrics — Jack enor Larsen, Gilford, Naugahyde, Knoll. Yallcoverings—Laue, Gilford. Accessories — America House, Jensen, Habitat. (C)

Photographer Sochurek's private office (three photos, upper left and opposite) has large scale furnishings, brilliant lighting, and artful treatment of sculpture ledges and three-dimensional wall-hung light boxes for transparencies. In contrast, the reception room (above) is quietly muted in both color scheme and lighting level.

BOWATERS SOUTHERN PAPER CO.

J. Aubrey Parrott, Interior Designer

Developing the executive core in a modern office building (of the low-slung variety) in the manner prescribed by the client can be difficult, but J. Aubrey Parrott of Edwards & Portman, architect/engineer of Atlanta, mixed the traditional and contemporary in a fashion that seems natural. Entry lobby and offices are contemporary, while the designer paid homage to the traditional in the reception room, the chairman's office, the office that visiting dignitaries use, and the board room. The latter are all done in a fashion that says the Britain-based firm of Bowaters may be in contemporary America, but a little English dignity please. The reception room features a William Spencer chandelier suspended from a ceiling well that defines the dining table location in this irregularly shaped, multi-purpose room that is used for varied entertaining functions. The board room has a handsome Jens Risom table, a Lightolier downlighting unit, and an oil by John Brooks of Atlanta. The chairman's office features many antiques and a built-in back wall cabinet of Edwards & Portman design, fabricated by Rentenbach Engineering Co. This office has a masculine, traditional feeling within a contemporary office complex without being fussy and overdone. The firm feeling of quality is presented in oils and antique accessories, allowing the traditional effect to come off without crowding the furniture. It was done within a budget and to fulfill a well-organized working function.

Suppliers in contemporary areas: *Carpeting—Cabincraft, McGee, Bigelow. Furniture-Jens Risom, Thayer Coggin, Dunbar, Ward Bennett, Hanseatic. Patio furniture-Woodard. Fabrics-Jack Lenor Larsen, Schumacher, Maharam. Wallcovering-Vicrtex, through Dwoskin's. Lighting-Lightolier, Luminous Ceiling. Lamps-Affiliated Craftsmen, Frederick Cooper. Accessories-Marshall Studios, Architectural Pottery. Suppliers in traditional areas: Carpeting-Mohawk. Furniture-Coventry House, Nadler, Barnard & Simmons, Kittinger, Hanover, Yale-Burge. Fabrics-Schumacher, Jack Lenor Larsen, Maharam. Chandelier, sconces—William Spencer. Lamps-Stiffel. (C)

With its own private entry, board room is at the center core of the single-story structure.

Reinforcing simplicity of the building's architecture, lobby is left relatively open to facilitate traffic.

Multi-purpose room is used for receptions, dining, and other functions.

In contrast to the traditional offices adjoining, secretarial area is a bright (in yellows) contemporary space.

The masculine, traditional feeling of all executive offices within the contemporary architectural framework was achieved by keeping the spaces relatively simple and free of fussy details.

Photos: I. D. Associates

Not all offices are traditional. This one, typical of the contemporary spaces, has its own private patio.

HOW AMERICA WORKS

Conference room (above) has smoking chairs upholstered in gold leather and a screen for films and slides recessed in the ceiling above the print depicting the signing of the Declaration of Independence. Below, seating group in executive director's office.

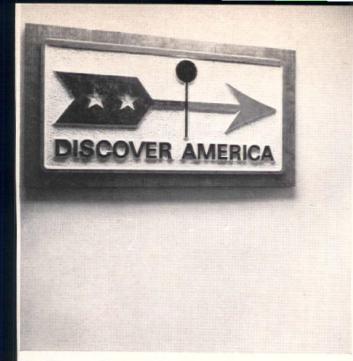

DISCOVER AMERICA, INC. Designers Fore Ltd., Interior Designer

How to allocate space for a completely new organization was a problem Stephen Auerbach of Designers Fore had to solve before he could begin to plan the Chrysler building offices of Discover America, Inc., in New York City. Working closely with Donald V. McCoy, head of the new nonprofit organization, Auerbach and staff designer Edwin Hurwitz developed a lobby and executive office imbued with Americana and a "kinds of activity" concept of general office space for an as yet nonexistent staff. Since most of the work of future staffers would be of a creative, cerebral nature, requiring intense concentration, small private offices were planned

where they would be able to work uninterruptedly at stimulating others-states, cities, Chambers of Commerce, industries -to develop their own "Discover America" programs. Furnishings and accessories reflect the organization's precept that every traveler in America, from the past and into the future, has been and is today participating in a continuing discovery. Colonial Williamsburg period furniture, together with "tell-a-story" accessories-ranging from Yorkraft reproductions of the Constitution, Declaration of Independence, Gettysburg Address, and other documents in the executive director's office, to the Schumacher wallpaper of the waiting area which depicts voyages made by the last surviving American Whaler, the Charles W. Morgan—graphically present the story behind that precept. A special Discover America logo, designed by Raymond Loewy/William Snaith, hangs of the wall just inside the entrance an points the way to a new and dynami organization, excitingly planned and designed.

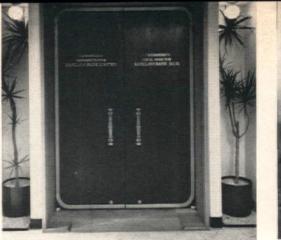

Suppliers: Furniture—Coventry Hous div. of Carolina Seating. Draperies, wall paper—Schumacher. Lighting, lamps—Halo, Stiffel. Wall accessories—Yorkraf Ashley. Foyer flooring—Kentile. (C)

The Discover America logo (above), designed by Loewy/Snaith and hand-made, has red, white, and blue motif outlined in stained wood border. Reception room (above right) is sparked with one wall of Americana art objects (below) supplied by Yorkraft.

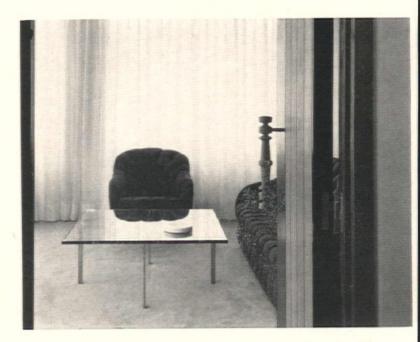

EXECUTIVE OFFICES OF BARCLAYS BANK Planned Office Interiors, Inc., Interior Designer

To lay out and design a unit of executive offices for two divisions of Barclays Bank, to set the tone of a firm mentioned in Dickens' A Tale of Two Cities, to reflect the age, stability, and dignity of the name Barclays, designer Angelo Abbate and decorator Marjorie Michaelson of POI went to work with warm materials, conservative colors, and a feeling for the comfort and esthetic well-being of everyone connected with the offices. With the restrictions of retaining existing light fixtures, air-conditioning equipment, and knocking down as few walls as possible, POI solved each problem in its turn. One of the most difficult-that of getting natural light into a long, somewhat dismal corridor-was solved by removing all walls running parallel with the windows and adding steel and glass partitions in the openings. The corridor was brightened and the entire space given an open and spacious quality. Paneling and woodwork, used extensively, give the "custom" touch and run the unifying theme of dignity, strength, and stability throughout the whole suite. Barclays is now firmly ensconced.

Suppliers: Furniture — Herman Miller, Shelby Williams, Jens Risom, Cumberland, Ward Bennett, Knoll Associates, Harvey Probber, Roffman Associates. Upholstery fabrics — Herman Miller, Win Anderson, Boris Kroll, Jack Lenor Larsen, Design-Tex, Souveran. Drapery fabrics — Scalamandre, Design-Tex, Anton Maix. Carpeting—Harmony Carpet Corp. Wood flooring—Heywood/Berk. Partitions—Movable Partitions Inc. Lighting—Habitat, Globe, Lightolier, Omega. Lighting grille—Para Wedge Louvre Co. Architectural woodwork—Ebner Woodwork. Plants—C. Kind. (C)

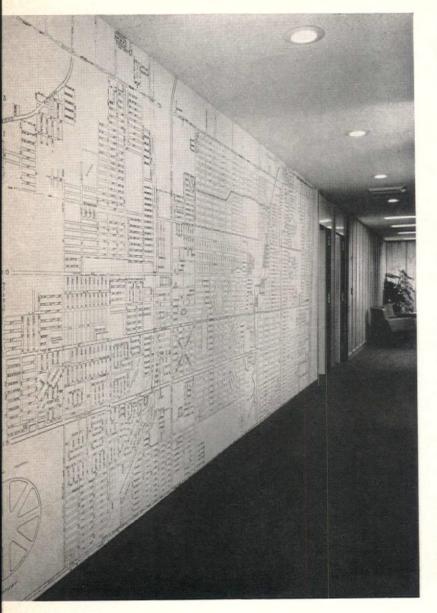

Two divisions of Barclays—representative's office and local director's office—occupy one space and share the same reception room. From left to right (above): Entrance doors; detail of door pull, which introduces a touch of tradition without using a traditional turning; view into reception room across threshold of solid oak beveled to form a ramp; visitors' informal conference room; corridor with glass enclosed offices. Below: opposite page, representative's office of Barclays Bank Ltd.; this page, local director's office of Barclays District Colonial Office.

HOLLYWOOD, INC. Wells M. Squier Associates, Interior Designer

Contemporary furnishings and materials used with oiled walnut, teak, and rose-wood combine in the offices of real-estate development firm of Hollywood Inc. to give the desired effect of modern, yet warm and comfortable, surroundings. Space was planned around a central core containing file room, office equipment, storage facilities, fire vault, and safe. The general reception room is linked by a narrow corridor to the executive reception area. How to make a narrow corridor interesting? Wells M. Squier applied a photographic enlargement of the original

site plan of Hollywood, Florida, to the wall (above) and transversing that corridor now can be an education, especially for a firm intimately tied to Hollywood's real estate. It was the perfect answer to a question some designers forget to ask. Executive offices are large, roomy, and not too formal, with emphasis on woodwork and wood-featuring furniture. Special wall units, desks, and credenzas were designed by Squier and executed by Mischeal Inc. The library features, besides books, a beautiful rosewood-top table by Robert John. An aura of comfortable

elegance is the theme of the offices of Hollywood Inc.

Suppliers: Furniture — Ward Bennett Lehigh, Knoll, Herman Miller, Robert John, Westin-Neilsen, Burke. Carpeting — Karastan, Bigelow. Fabrics — Isabel Scott, Maharam, Cartier Mills, American Leather. Fabric finishing — Scotchgard Wallcoverings — Isabel Scott, Columbus Coated, imported Italian marble. Draperies — Ellen Siegel. Architectural woodwork — Designers Showcase. Accessories —Rainbow Wood Products, Smith Meta Arts-Section. (C)

Bright, warm colors punctuate the executive suite of Hollywood Inc. in Florida. Top-echelon offices (above and opposite page, top) feature specially designed desks by Wells Squier and lavish use of highly grained woods—in wall paneling and furniture. Design emphasis is also apparent (below, left to right) in general reception room, another private office, and secretarial area, which leads to executive offices and conference room/library.

Photos: Black-Baker Photographers

Photos: Alexandre Georges

OXFORD CHEMICAL CO. Alan L. Ferry Designers, Inc., Interior Designer

Feeling that a strong contemporary statement would best introduce the interiors and establish transition from the modern architecture of the building to the office complex, job captains Phillip Weiss and Carolyn Howard of Alan L. Ferry Designers, Atlanta, treated the lobby design of Oxford Chemical Co. in Chamblee, Ga., in a crisp, understatement of steel, glass, and leather. The setting features a seating group of Mies van der Rohe chairs and steel frame sofa. Lush plantings and warm

teak paneling, however, soften the lobby and serve to introduce the two styles of the executive suites. The president's office, with its paneled walls, rich velvet carpeting, and traditional-oriented furnishings, projects an image of a stable, established company, while the board chairman's office, appointed in the classic international style with extensive use of glass and steel, enhances the image of a forward thinking, progressive company. Thus, a "middle-of-the-road" sophistication

sought by Oxford was attained.

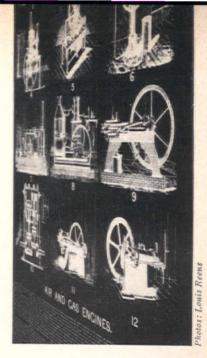

Suppliers: Furniture—Knoll, Jack Cartwright, Kittinger, Baker, Widdicomb, Fine Arts, Kent, Phillip La Verne, Edward Alden, Ward Bennett, Tri-Mark, Harvey Probber. Carpeting—Custom Floor Covering Mills. Fabrics—Dunbar. Larsen, Jens Risom, Brickel-Eppinger, Bolivia, Unika Vaev, Maharam. Grasscloth wallcovering:
—Dwoskin's. Paneling—Womack. Planter:
—Architectural Pottery. Drapery, cornice boards—Hexter. Lamps—Nessen. (C)

ELIZABETHTOWN UTILITIES I.S.D., Inc., Interior Designer

Working within a given budget limitation, I.S.D.'s chief consideration in planning the joint interior facilities of Elizabethtown Consolidated Gas and Elizabethtown Water Co. in Elizabeth, N.J., was to reflect the efficiency of this utility. A preliminary employee survey was conducted to determine the various requirements of the many different types of Consolidated operations. General furnishings are teak wood, teak plastic laminate, and white plastic laminate. The general color throughout the interior is white. Color and grade of a special carpeting, whose fabric and pattern I.S.D. designed, separate general, secretarial, and executive areas. Contemporary artwork, and black-and-white photo murals depicting the history of gas manufacturing, accent the general and secretarial areas, while a special art program was organized for the executive offices.

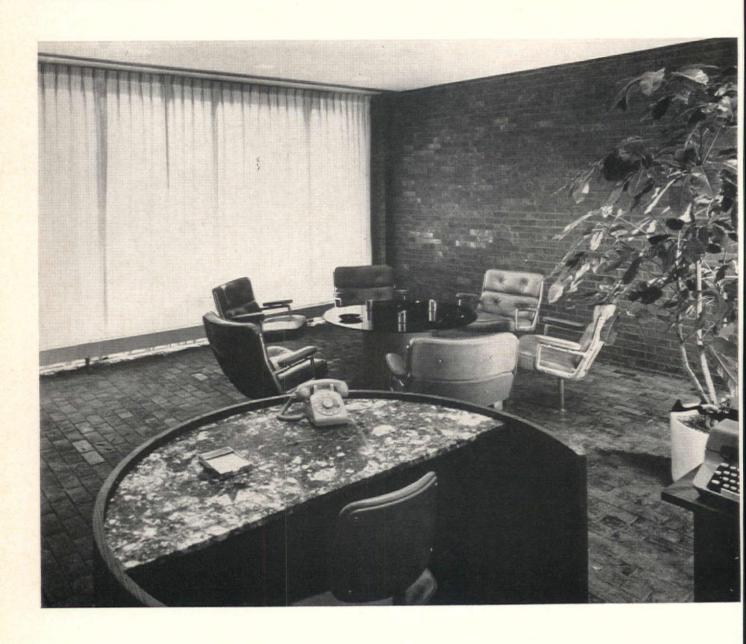

Suppliers: Furniture—Knoll, Avard, John Vesey, Ward Bennett, Steelcase. Carpeting—James Lees. Fabrics, draperies—Ben Rose. Plants—Julius Roehrs. Lamps—Hansen. Book shelves—Ebner Woodwork Corp. (C)

HUGHES HATCHER SUFFRIN Designs For Business, Inc., Interior Designer

In developing the 30,000 square-foot, two-story headquarters building of Hughes Hatcher Suffrin in Detroit, Designs For Business and architect Sanford Rossen created a structure specifically designed for growth and flexibility. To provide for the continued expansion of the nation's largest independent retailer of men's apparel, all of the furniture in the executive offices and secretarial areas is completely adaptable for use in any other comparable office or area in the building. In addition, each of the offices can be enlarged or reduced in size merely through relocation of movable partition walls. Each office

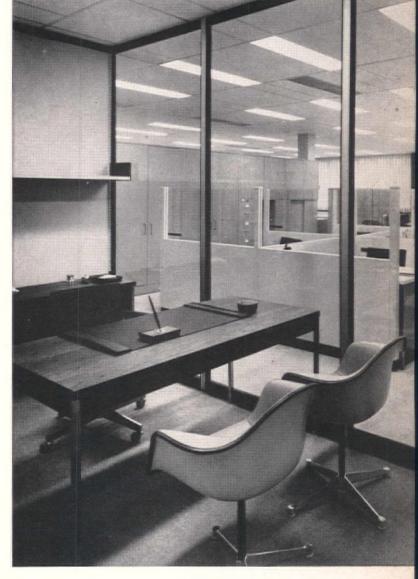

is based on the same module, with its own lighting, telephone and air-conditioning facilities, so that fixtures need not be relocated when and if the walls are moved. The visitor to the building is immediately made aware of its design unity. The first floor reception area features the same kind of Arkansas paver brick flooring used at the building entrance exterior. This brick motif is continued on the rear wall of the reception area, and is similarly utilized in the second floor reception area near the president's and vice president's waiting rooms. All floors are fully carpeted and extensive planting highlight a warm atmosphere. In addition, Hughes Hatcher Suffrin top management is placing original works of art in the executive offices, reception areas, cafeteria, and employee's lounge. To sum up, the new headquarters building is the realization of a design concept that places its primary emphasis on the purpose of each individual and his function within the organization Gerald Whiteford, DFB vice president in charge of design, was assisted by Eve Frankl, decorating coordinator.

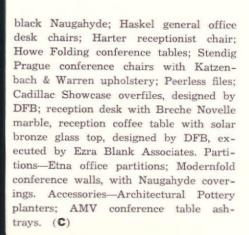

Suppliers: Furniture—Designcraft desks and back units; Herman Miller office bucket chairs and DFB-modified reception chairs; Royalmetal desk chair, with

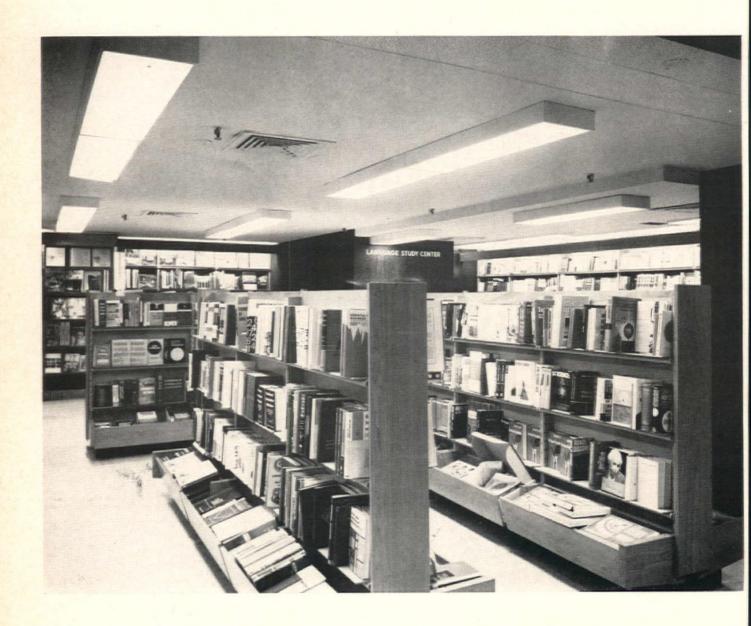

Second floor reception room (opposite) emphasizes the brick flooring and walls by limiting decor to minimum amounts of elegant furnishings and keeping the color scheme in earth tones. Typical executive office (right) is simple yet functionally furnished, with table-type desk and a commodious back wall unit. Two photos above: meeting rooms with movable partitions and one of the general clerical work areas, color-coded and sectioned off by seven-foot-high banks of filing cabinets in lieu of walls. Architect for the building, located in Detroit's West Side Industrial Redevelopment Project, is Sanford Rossen.

HOW AMERICA SHOPS

BRENTANO'S FIFTH AVENUE Warner, Burns, Toan & Lunde, Architect

Designed in the shape of a center court, with interconnecting shops and galleries on different levels, Brentano's Fifth Avenue in New York City is an art gallery, a place to stage free concerts and other cultural happenings, and one of the most comprehensive book stores in the world. The architectural firm of Warner, Burns, Toan & Lunde remodeled and extended the old Brentano's to make the new shop one of a kind. Block-long, with entrances on Fifth Avenue, 47th and 48th Streets, the new store has five main areas: The

Fifth Avenue arcade, the art and gift books terrace, and the three-level center court area. The old but remodeled 47th Street shop has a bridge and chess center, while the 48th Street shop, the new north wing, houses the Galerie Moderne. In addition to all kinds of books, including rare ones, the store displays a variety of merchandise from all over the world. Sculptures, wood carvings, decorative arts and crafts, glassware, ship models, and musical instruments are included. To highlight this multiplicity of merchandise, dis-

plays, and art objects, an attractive, functional, and flexible lighting system was required. Accent lighting for the special displays and in-store illumination for general selling areas were provided by Lightolier, and were used in a manner that gives a sense of spacious and relaxed informality.

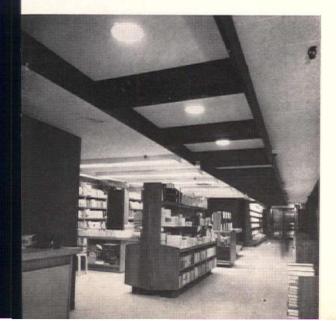

Suppliers: Showcase fixtures: designed by Warner, Burns, Toan & Lunde, executed by Eckert-Johnson, in Plywood with cherry veneers. Flooring—Kentile vinyl asbestos. Lighting—Lightolier. New entrance fronts—Armet-Architectural. (C)

Fish-lens view of the center stairwell playfully distorts the several levels of the remodeled bookshop. It is in this center court that cultural happenings—informal concerts, poetry readings, etc.—take place.

KARL MANN SHOWROOM Edelman & Salzman, Architect

With demand rapidly accelerating, and expenditures for commercial wall decorations already running into millions a year, Karl Mann Associates of New York City has become one of the country's most important contract art facilities. Created under Karl Mann's supervision in his large Greenwich Village workshop and now displayed in his new 59th Street gallery showroom, the firm's decorative art has set the standard in the design world for volume, taste, and economy. Karl Mann, an excellent designer himself, took on the task of converting a large, bare basement storeroom on 59th Street into a handsome showroom gallery for his own organization. A cantilevered, hardwood staircase-elegant and functional-provides a perfect exit-entrance link between the Mann gallery and the Jack Lenor Larson fabrics showroom upstairs (see following pages). The Mann gallery is beautiful organized into intimate partitioned space united by a low grid plywood ceiling. The art is backdropped by fabric-cover walls, exposed brick, and imported six rugs. Movable panels provide freedom arrangement, as well as privacy for disigners and their clients. Carpeting is elegantly severe, charcoal-tone sisal mating. Unique lighting effects are obtain from exposed, clip-on photographer lamand a few specially designed Lightol fixtures. The Mann showroom gallery its own best advertisement.

Suppliers: Showroom furniture—Ste dig, Fritz Hansen, Leif Wessman. Desk Cumberland. Sisal carpet—imported fr Holland by Karl Mann. Fabrics—Belg Linen. Lighting—Lightolier. (C)

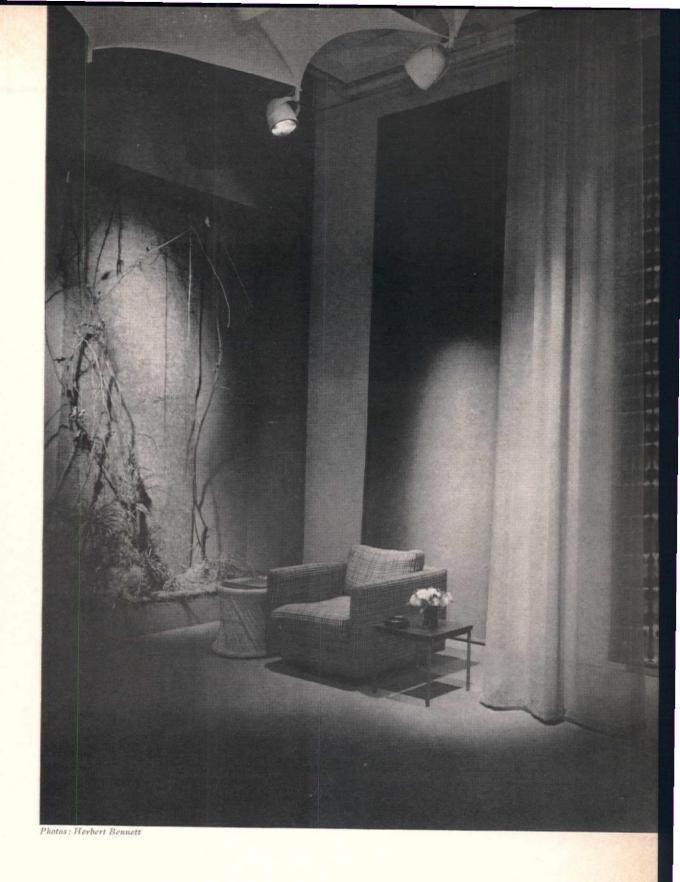

JACK LENOR LARSEN SHOWROOM Charles Forberg & Associates, Interior Designer

If one examines the list of suppliers in this issue under Fabrics, the name of Jack Lenor Larsen is ubiquitous. In a huge new showroom on 59th Street in New York Larsen displays the fabrics that have made him famous. Floored by a 17-foot-high stamped tin ceiling, designer Charles Forberg promptly rose to the occasion by suspending from the ceiling an undulating apparatus that is actually white nylor mesh on a cagework of white, steel square tubing. Effectively reducing the room to human proportions, the framework hold the adjustable spotlight cans. More, lifts the showroom right out of the ordi nary. White roofless enclosures and larg white panels hold the amazing variety of Larsen fabrics and white bookshelve an easy reference library of cushion covered with Larsen's upholstery textures Suppliers: Lighting-Edison Price. peting-Duraloom Carpet Mills. Ceil ing fabric-Gerking Textiles. (C)

HOW AMERICA BANKS

BULLOCH COUNTY BANK

Alan L. Ferry Designers Inc., Interior Designer

Creating a casual, small-town atmosphere amid functional banking facilities was the problem faced by the Alan L. Ferry organization of Atlanta when it took on the job of designing the Bulloch County Bank in a new building in Statesboro, Ga. Working closely with architect Edwin Eckles, job captain Hugh Latta achieved an appearance that strikes a nice balance between traditional and modern styling. Harmonizing with the arch theme of the exterior, the center arch extends into the interior, forming a two-story, vaulted ceiling which runs the length of the banking area. On the left side are the president's office, the officers' platform, and the loan department. On the right, under a lowered, luminous ceiling, the teller and vault areas. A unique requirement the designer fulfilled was locating the president's office so that he could greet customers as they enter and leave. Most of the furniture is oiled walnut, the accessories hand-crafted to accent casualness, and the upholstery heavily textured to blend with the river pebble aggregate walls, grasscloth wallcoverings, and walnut paneling. Colors were defined by the beige tone of the tiled flooring and the oranges and browns of the walls. Carpeting is a moresque of brown and orange heathers, while woolen casements are in muted tones of yellow, orange, and olive. On the second floor are located the directors' room, employee lounge, and bookkeeping department. At the rear of the banking lobby is a simple, comfortable lounge area which further enhances a total image of warmth and quiet strength.

Suppliers: Furniture — Jens Risom, Metropolitan Furniture, Knoll, Jack Cartwright, Edward Axel Roffman, Stendig, Frederik Lunning. Fabrics — Unika-Vaev, Jack Lenor Larsen. Wallcoverings — Dwoskin's. Carpeting — Gulistan, Custom Floor Covering Mills. (C)

hotos: Robert F. Smith

Generously proportioned main banking floor (above) contains a carpeted lounge area (opposite, top) and officer's platform (left), with informal seating groups in true Southern hospitality manner. In another touch of banking friendliness, the president's office (opposite, lower photo) has a windowed wall looking out onto main banking areas. Such propinquity to routine banking business makes the president accessible to customers and staff.

WACHOVIA BANK & TRUST CO. I.S.D., Inc., Interior Designer

Planning and furnishing 11 floors of banking offices in a new building in only eight months is a crucial test, but I. S. D., working closely with the Wachovia staff, brought the project to a swift and satisfying conclusion. The banking lobby, being the most important area of public contact, required an appearance that would immediately reflect the bank's image. To achieve this, it was totally wool carpeted in a rust-gold tone, walled at the core and columns in creamy travertine, and lighted with warm white fluorescent tubes. Offices and conference rooms, off the lobby, are enclosed by walnut paneling, and the 16-foot ceiling behind the tellers' counter is scaled down to human height by suspended back lighted walnut panels. Walnut furniture, with terra cotta wool, natural and black leather upholstery, helps to solidify the dominant character. The general offices are of building standard materials, in building standard colors: movable partitions of off - white or walnut, light neutral vinyl asbestos floor tile, and acoustic tile ceilings. Two problems created by the move from an old, nook-andcranny, windowless building to a highrise, glass-and-steel structure were uniquely solved. Glare is avoided by thinslatted, off-white venetian blinds, with compatible off-white open casements hung in front of convectors. Desks face the deep walnut partitions. Employees, accustomed to privacy, were provided wit work extras to smooth the transition from individual to open areas. The boar room and executive suites are, of cours furnished in a manner consonant witheir executives' functions and with the over-all atmosphere of the bank.

Suppliers: Furniture — Alma Desk Co General Fireproofing, Drexel Enterprise Knoll, Lehigh, B. L. Marble Co., Myrt Desk Co., Jens Risom, Thonet Industrie Carpeting — Mohawk, Lees, Bigelov Sanford. Fabrics — Unika-Vaev, Jas Lenor Larsen, Isabel Scott. Planters an Plantings — Architectural Pottery, Juli Roehrs. (C) The joint venture by I.S.D., building archiect Cameron Associates, and bank archiect A. G. Odell Jr. & Associates, has provided Winston-Salem, N.C., with a new ook in banking—prestigious yet quite conemporary and comfortable. "Inside" facilies are just as elegant as the spaces that reet the daily public. There is a small conerence room off the main lobby for cusomer conferences (right); an open but wiet trust department (below); spacious xecutive offices (the vice president's is hown below right).

HOW AMERICA STUDIES

COMMUNITY SCHOOL OF UNIVERSAL RELIGION Designs For Business, Inc., Interior Designer

The Community School of Universal Religion in New York City is unusual in several respects. First, it occupies three adjacent renovated brownstones. Second, its activities are diverse, including regular week classes for pre-school children; weekend interfaith religious classes for grade school children; inter-denominational religious services; art exhibits; science and language classes; teen dances, and other social activities-with an attendance of almost 500 persons every week. Third, these activities take place on the first three floors of the three buildings, while the upper floors house private apartments (with their own access) that have nothing at all to do with the functioning of the school. Located at the site for the past 15 years, the

Community School's increased scope of activities necessitated an important expansion. With architect Fred L. Liebman, AIA, Designs For Business developed a design approach as comprehensive as the activities of the school that centered on a planning program to make maximum use of all available spaces. Thus, all three adjacent buildings are interconnected with ready access, and all furniture has been designed for quick and easy storage, enabling immediate conversion of classrooms to other uses. The ground floor houses nursery and four classrooms, the school's general offices, and storage, pantry, kitchen facilities. The first floor contains three classrooms, private offices, storage and pantry facilities, and an unusual multi-purpose room with a movable stage and large round fold ing conference table. This room is us for meetings, exhibits, religious service and social functions. The second flo is devoted to day-school offices, nursery classrooms, kindergarten first-grade classrooms, and library. Ea floor is color-coded: yellow for ground floor, blue for the first, and red the second. These colors appear on corridor floors and as accent colors the classrooms and offices. Walls, ge erally, are white; some are of natural brick, preserved where possible from original structure. In charge of the proect was DFB vice president Ger Whiteford, with Eve Frankl as proj-

CARL R. RENG UNION BUILDING, ARKANSAS STATE COLLEGE Stuck, Frier, Lane & Scott, Inc., Architect/Engineer

The biggest project recently completed at growing Arkansas State College in Jonesboro, Ark., is the \$2.5-million Carl R. Reng Union Building, designed by the architectural firm of Stuck, Frier, Lane & Scott, Inc. Located in the exact center of the housing and academic complex, and part of a \$20-million building program, the student union was designed to house the central dining facility for the present campus. One of the prime requisites was that the building "endure." All public areas were designed to be as studentproof as possible, yet to retain a fresh, handsome look. Floors combine terrazzo and carpeting; walls are covered with colorful vinyl. To carry out this premise in the furnishings, the architect worked closely with the planning office of Herman Miller, Inc., furniture manufacturer which has conducted numerous studies on student seating requirements. Chief feature of the building is the two-story main lounge, formal in feeling, spacious and uncluttered, and with a sunken conversation pit surrounding a massive fireplace. On the second floor, off the balconies which look down on the lounge, the architects located the grand ballroom, a versatile space divided into three meeting spaces by use of 30-foot-high, walnut-faced folding walls. Five hundred stacking Fiberglas chairs change the ballroom into a banquet room, auditorium, seminar or special conference area. The cafeteri which can be arranged into several seatir schemes depending on groups to be serve during special occasions, has facilities for feeding 1,500 students per hour.

Suppliers: All furniture—Charles Eams and George Nelson designs, manufacture by Herman Miller. Carpeting—Gulista Flooring—Terrazzo. Wallcoverings—Columbus Coated Fabrics; U.S. Plywoo walnut paneling; Acme Brick expose brick. Lighting—Lighting Products recessed fluorescent; Kurt Versen recesse incandescent; Movable partitions—Virgin Metal Products. Folding partitions—Modernfold Partitions. Planters—Architectur Pottery. (C)

LAWSON HALL, SOUTHERN ILLINOIS UNIVERSITY Mittelbusher & Tourtelot, Architect/Engineer

The design of the 6,667 square-foot airconditioned Lawson Hall at Southern Illinois University, Carbondale, captures the properties essential to an audio-visual facility. The architectural firm of Mittelbusher & Tourtelot, with University architect Charles M. Pulley, planned Lawson Hall with four triangular auditoriums on a single level to form a semi-circle on one side of an instructional support core. On the other side are hexagonal discussion classrooms, three each on two floors. Each auditorium seats 291 students; discussion classrooms seat 80 each. For acoustical considerations, the non-parallel walls are hard-surfaced, floors are sloped and splayed, plaster ceilings are suspended, absorptive materials occur in cerain areas, and double partitions separate

spaces. Highlighting the basic neutral beige, brown, gray color scheme, the fixed plastic shell chairs are in olive, aqua, black, and gray, with white plastic laminate tablet arms. Lighting combines fluorescent fixtures and recessed incandescent downlights at variable light levels. The downlights were specifically designed for note taking during a visual presentation. The hexagonal discussion classrooms emphasize discussion and small groupings with fixed, swivel brown plastic shell chairs terraced in a horseshoe pattern. Continuous wood-grain plastic laminate table tops and corrugated, perforated metal table fronts provide visual continuity and acoustical properties. The corrugated material is also framed in panels at the side and back walls, again

for acoustical considerations as well as for a decorative touch to offset the basic off-white concrete block treatment. Thomas Ogilvie of the architectural firm served as interiors consultant, under the direction of Edward M. Tourtelot, Jr., partner in charge.

Suppliers: Furniture—Howell Co. plastic shell chairs and tablet arms in auditoriums; Clarin classroom chairs; table desks specially designed by Mittelbusher & Tourtelot, with Fiberesin Plastics tops and Aluminum Products Co. fronts. Coat racks — Vogel-Peterson. Flooring — Flintkote Co. Lighting—Hub Electric downlights; Good Mfg. and G&M Lighting fluorescent lights. Chalkboards—H. Clements Co. Structural glazed tile—Arketex Ceramic. Brick—Alton Brick Co. (C)

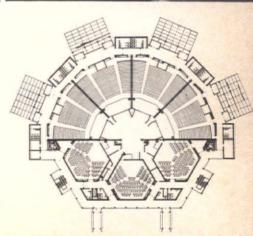

WOODWORTH LIBRARY, FORT GORDON Interiors For Business, Inc., Interior Designer

The main library on an army post is most nearly related to a public library in a medium-size city in that it serves the entire military community, including dependents, and is open to everyone from raw recruit to commanding general. Architectural firm of Jones & Fellers had virtually completed plans for the library at Fort Gordon before interior designer Mary Nikas, head of Interiors for Business, was engaged to do the interior planning. Thus, the basic spaces and areas were set. The interior designer's approach was to preserve and carry out the feeling of the building, with its light airiness and classic modern idiom. Mrs. Nikas, who has made library design a specialty, was faced with several requirements peculiar to the post library: a military science room to house books in that category; a special activities room to provide space for discussion groups, lectures, and viewing of films and slides; a reference room heavy with maps and atlases to satisfy the curiosity of persons who travel more than most. Durability and easy maintenance were prime requirements for all furnishings, though a good deal of latitude was given the designer to use lounge furniture, bold and cheerful colors, and rich materials. Also, the unusual central sunken court design of the building presented problems to the designer which, however, she chose to regard as challenges. One of the first was to locate the circulation desk area at the entry and make it functional in spite of the fact that there was behind it an open garden court instead of the usual work rooms and offices. A U-shaped desk of stock components was designed as the circulation desk and behind it was placed a unit desk at which books are prepared for reshelving. A floating panel of smoke gray Plexiglas over foil paper was added to the desk front to make it an entity to harmonize with the decorative oval panels at the front windows. At three corners and one side of the building are enclosed

rough glass entrance (above), visitors of across slate floor to check-out desk prosite, below), then back to periodicals rden court (immediately below), and yond that to reading lounge (below right d opposite left).

courts, with panels of warm tan and gold colored pebbles, floored in pea gravel laid in concrete squares. Since these courts open only into the library, reading material can be taken to them and perused in a leisure of changing shadows and quiet. The library features a music room in which letters can be writen and music listened to on individual head sets, a children's room, a young adult area, and the military science room, where future generals are known to congregate.

Suppliers: Library furniture — Frederic Weinberg, Myrtle Desk, Southern Desk Co. General furniture—Brown-Jordan, BrownSaltman, Jack Cartwright, C. I. Designs, Designcraft, Fixtures Mfg., I. V. Chair, Robert John, Knoll Associates, Metalstand, Herman Miller, Monarch, Scandiline, Shelby-Williams, Stacor Equipment, Steel Equipment, Thayer Coggin, Thonet, Tri-Mark, United Chair. HOW AMERICA TRAVELS

PARK PLAZA HOTEL Roland Wm. Jutras, Interior Designer

The only new hotel in New Haven in the last 50 years, the ultra-modern Park Plaza in Chapel Square dominates its surroundings as the United Nations building dominates the East River in New York. Chapel Square is New Haven's new downtown shopping, business, and office complex, adjacent to the historic Green and Yale campus. Owned and operated by the Gilbane-McShain Hotel Corp., the Park

Plaza was constructed by Gilbane Building Co. from specifications by architect William B. Tabler. The hotel has 310 guestrooms and suites, three restaurants, two cocktail lounges, a 1,000-seat ballroom, six special function rooms equipped with visual and electronic aids for conventions, two lobbies, a parking garage, and a heated outdoor swimming pool. But interior designer Roland William Jutras has made the

inside of the hotel the most interestin part. Guestrooms and suites have strongly residential character, with just the right blend of modern and traditions furnishings. The main lobby features circular seating areas, in a color scheme of terra cotta and beige, with accents of blac and white, and antiqued fruitwood paneling. A spectacular "double winder" stair case leads to the ballroom and restaurant

Main lobby (left) has a clean yet lush appearance. Double winder staircase invites guests to dine and dance. An intimate, Old English atmosphere glows out of the antiqued fruitwood paneling of the coffee shop (top). Elevator lobby of the Top of the Park (above), as well as The Top of the Park proper (right), feature banquettes by Keller Furniture Co. and spectacular views.

facilities on the floor above. The coffee house features a counter and several dining areas in a color scheme of bright green, navy, and turquoise, with wall baneling and entrance doors of antiqued ruitwood. For those eating "high off the hog," there is the Top of the Park on the 18th floor, which has a cocktail lounge and a dining room paneled in matched flitch rosewood, with accents of fuchsia, and sofas, banquettes, and chairs upholstered in black Naugahyde.

Suppliers: Furniture—Keller Furniture Co., Erwin Lambeth, Modern Store Fixture Co., Trouvailles Inc., Hibriten Chair Co., Drexel, Haasbrock Sonderguard, Charlotte Chair Co., Jack Cartwright Inc., Richardson-Nemschoff, Shelby Williams, Chicago Hardware, Hickory Chair Co. Carpeting—James Lees & Sons, Mohawk, Barwick Mills Inc. Stained glass panels—Shirley Tattersfield Associates Inc. Leather panels—Lackawanna Leather Co. Upholstery—Adams Vinyls Inc., Lackawanna Leather Co., Interchemical Co., La France Industries Inc., U. S. Naugahyde, Wayne Weavers, General Rubber Co., Cohama. Shade and drapery fabrication—General Drapery Services Inc., Bailey & Weston. (C)

Entrance to the Cafe Napoleon (below) which features French specialty entred items, was designed with a center cours (above left) and four private dining areas (left). The color scheme is in shades of red and blue, with accents of dark oak paneling and millwork. Exquisite stained glass panels by Shirley Tattersfield accent the feeling of French elegance.

guestroom (lower left), and suite (lower right), the carpet is terra cotta, walls beige or white, draperies textured beige and white, spreads beige, terra cotta and black, lounge chairs terra cotta, and all case pieces including headboards, night tables, chest-desk-chest, circular table, etc., are in rosewood with white marble tops.

HOW AMERICA TRAVELS

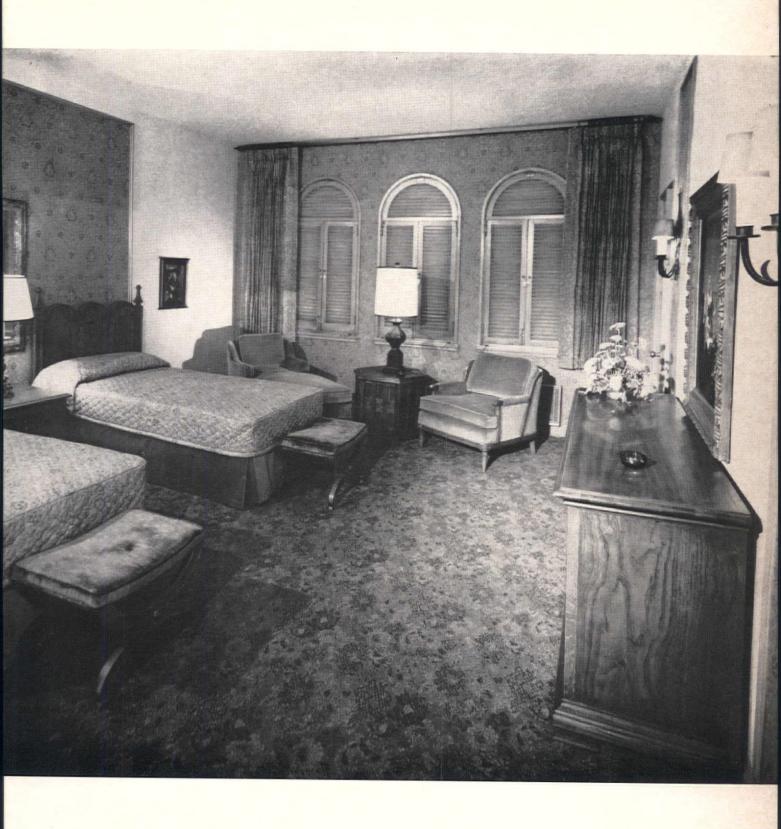

Original architectural details were restored to their original splendor in Boca Raton's main lobby (left), and in refurbished areas. In typical guestroom (right) the Mediterranean mood was retained and contemporary comforts and conveniences added.

BOCA RATON HOTEL & CLUB

Shelton, Ullman, Smith & Streich Inc., Interior Designer

Winning the bid to redesign and refurnione hundred rooms and to refurbish a modernize the grand lobby of one of t poshest hotels in the world in only sweeks was just the first hurdle the hom town team of Shelton, Ullmann, Smith Streich Inc. had to clear. Grand dame Florida hostelries, the castle-like Bo Raton Hotel & Club has been a Florilandmark since it was expanded to present 400-room size in 1928. Futu

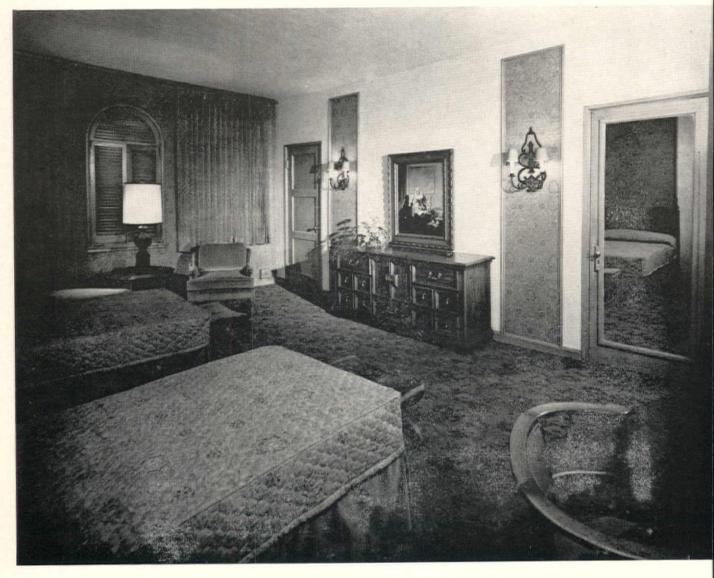

ans call for new construction to make a Boca Raton one of the largest luxury sort hotels in the world. But prior to pansion, management thought it wise to hovate the existing facilities so that the di would harmonize with the new, and that guests would not have cause to aw invidious comparisons between the o. As many as 18 coats of paint had to removed from some walls and door times. Layer after layer of wallpaper was

stripped from some of the 40-year-old walls. Lobby walls were repainted—returned from a muddy pink to the oyster white they wore during the twenties. Columns, balustrades, and molding were ground-coated and glazed, leafed, and color detailed. Area rugs, inspired by architectural motifs in the ceiling and other parts of the lobby, were custom designed by the Shelton firm and executed by James Lees. Carpeting in a Spanish tile

theme was created for the corridors. Baseboards were finished in a glowing red glaze. In the interest of both time and budget, it was decided to completely refurnish 50 guestrooms and refinish the existing French Provincial-style furniture in 50 others. To create a feeling of individuality in each room, the designers carefully avoided the stereotyped "matched-up" hotel look. Eight different color schemes were employed—principally

Two panels behind the chairs in this French Provincial guestroom (right) are actually window blinds in a David & Dash linen, protected with Zepel stain repeller. Same paisley fabric was quilted for the coverlets. The Spanish-inspired theme of guestroom (below) is typical of many in the 100-room redecorating program at the Boca Raton.

reds, greens, browns, golds, and blues. Wall-to-wall carpeting by Bigelow of two types, two styles, and four colors was laid in all rooms and closets. Wall surfaces were covered with paper or with fabric, and laminated shades were placed at the windows as a means of controlling outside light. Draperies and quilted bed coverlets

are made of David & Dash linens, protected by DuPont Zepel stain repeller. The David & Dash/Zepel combination was used for virtually all fabrics. Accessories were selected with uncompromising attention to their suitability to the Mediterranean scheme of things. Retaining that scheme and yet taking advantage of contemporary comforts, conveniences, and materials w the goal of Shelton, Ullmann, Smith Streich—and it was achieved in six week

Suppliers: Furniture—Drexel. Carpetin—Bigelow, James Lees. Fabrics—David Dash, with Zepel stain repeller by DuPor Fixtures—Pino de Luca, Lightolier. Lam—Paul Hanson. (C)

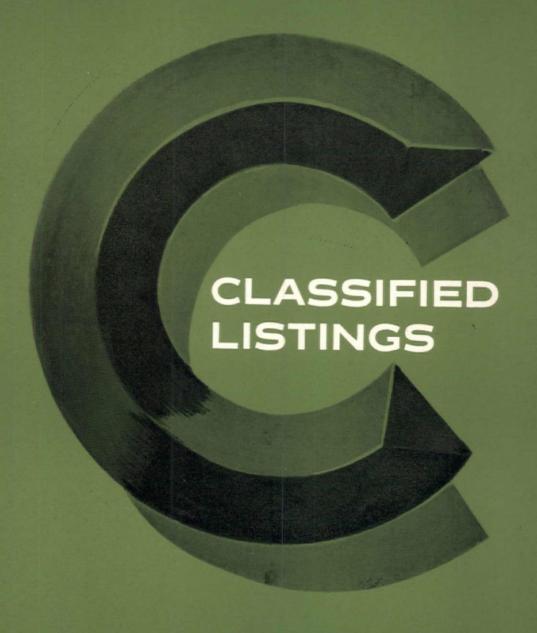

Walls are handsome combinations of fabric panels and wallcoverings. The panel is the same material used for the coverlet, and for the shower curtain (upper photo) as well. Windowwall unity (lower photo) was simply but dramatically achieved by making shades of the same Spanish baroque damask.

there are some wall coverings we don't make

Cliff dwellings do pose problems for wall beautifiers, and not even Laminating Services is much help. But we're more help than anybody when you need to create impressive interiors for restaurants, offices, meeting rooms, bank lobbies, and the like.

No other manufacturer offers you such a broad range of quality wall coverings as Laminating Services. One unique material is Pliant Wood, shown below, a genuine wood veneer with fabric backing. Pliant Wood can be applied directly to existing walls, requires no furring strips, no alteration of existing woodwork. It's available in over 50 species in matched or random grade, including many exotic varieties.

There are many more: Vin-L-Fab, offering hundreds of colors, textures and patterns, such as Vin-L-Fab "22", a tough, solid vinyl that even comes in stripes in widths you specify ... Wovan, for the soft beauty of woven cloth ... and velvety Vin-L-Suede, of washable nylon.

No other manufacturer can answer so many of your wall covering needs.

For details write for Brochure No. 100(C).

■ THE NICKEL STAINLESS STEEL CASUAL FURNITURE WITH THE FULL TEN YEAR WARRANTY

SEE OUR

You read it right . . . 1977 models. SurfLine is the casual furniture that is so enduringly constructed of stainless steel and pure vinyl that it carries a full 10 year warranty. If your store caters to a quality-minded clientele, SurfLine belongs in your merchandising line-up!

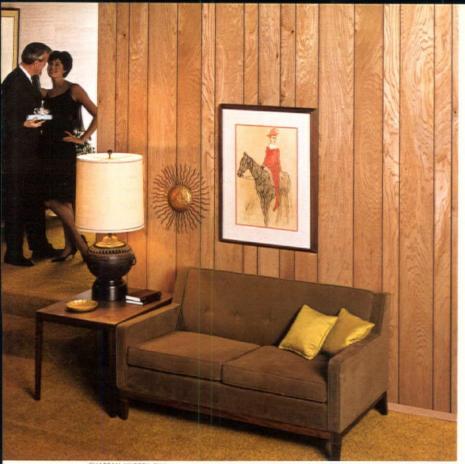

Circle No. 129 on product information card

BULLETIN!

All SurfLine dining and umbrella tables now available with SLATE FIN-ISH Reinforced Fiber Glass Tops, in colors to match cordwrap!

You've heard "I can't afford it." for the last time!

Georgia-Pacific has real wood paneling any client can afford.

When a job demands the natural warmth of real wood, don't let price stand in your way. Georgia-Pacific offers you the largest selection of real wood panelings in the industry at prices your clients can afford.

We both know there's just no substitute for the natural texture, color, grain, luxury and character found only in real wood. These G-P panelings offer you all of this and more. Every panel has our exclusive, plastic-type Acryglas® finish, that is so tough you can't even faze it with fingernail polish remover. Send us the coupon on the back of this page. Then specify real wood paneling to your heart's content . . . and within your clients' budgets.

Now you can use real Rosewood with a clear conscience.

G-P's prefinished Chateau Rosewood paneling costs less than \$63 a panel.

Here is Georgia-Pacific Chateau* Rosewood . . . with the deep, rich look only real Rosewood has. The extra wide vertical grooves give walls the look of solid planking. You can stack the Chateau panels one on top of another, because the grooves are always in the same place ... you get a continuous groove from floor to ceiling. And, each panel is protected with G-P's Acryglas® finish. The low price puts real Rosewood into more of your clients' budgets. Chateau Rosewood costs less than \$63 for a 4x8 foot panel. Next time a room or office demands the luxury of real Rosewood, use it with a clear conscience . . . specify Chateau* Rosewood from Georgia-Pacific. (Standard 4'x8', 9' and 10' panels.)

More luxury panelings at low-cost from Georgia-Pacific

G-P INLAID* PANELING! Here's the custom look of hand-crafted Inlaid paneling in easy-to-install plywood panels. Take your pick from eight elegant hardwood combinations. Multi-coat Acryglas® finish looks like a hand-rubbed oil finish. (4' x 8', 9' and 10' panels.)

G-P GOLD CREST* PANELING! This is the decorator paneling with the wide, vertical channels you can decorate to compliment room decor. The channels are a half-inch wide; you can insert colored tape, metal strips, fabric or tile. Choice of Rosewood, American Walnut, Distressed Heirloom Cherry, Golden Elm and Pecan. All with Acryglas® finish. (4' x 8', 9' and

10' panels.)

G-P ARCHITECTURAL PANELING! We offer a choice of over 50 architectural panels, and we handcraft them to your specifications. Both standard and specified grades... with a wide selection of veneer matches. We also have fire retardant panels in all standard thicknesses.

KING ARTHUR'S ROUND TABLE

was only the beginning.

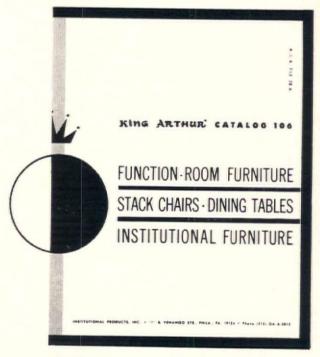

Today, new tables of all shapes and new equipment of all kinds are the modern wizards of space. In an instant—they change a regular room into special function rooms for banquets, conferences, cabarets or meetings.

For the magic plans of

FUNCTION ROOM FURNITURE

send for your new King Arthur Catalog 106, plus the informative "Guide to Function Room Furniture".

Wall-PAPER:

a new word in the Winfield vocabulary

** Winfield has a reputation for producing the finest of foil wall-coverings. Now Winfield widens its

horizons with a new group of designs — printed on paper, not on foil—in its Volume 7 Gravure Collection. Illustrated is "Buntpapier," winner of the 1967 AID International Design Award for Contemporary Wallpapers. "Buntpapier" is just one of a full range of 18 new designs in a total of 116 colorways, all washable. They are sampled in a 20" x 14" hardbound volume, \$12.00 the copy. Order yours now from your Winfield distributor.

Winfield+ TEDLAR

the new words **VOUI** vocabulary

Ballpoint ink, lipstick, merthiolate, food stains, and more, can all be washed right off TEDLAR*, no matter how long they have been there. Winfield has now made it possible to laminate DuPont's miraculous TEDLAR PVF film finish to wallpaper. The designs from Winfield's new Volume 7 Gravure Collection are available with the TEDLAR finish to special order—at a price attractive enough to make handsome walls extremely

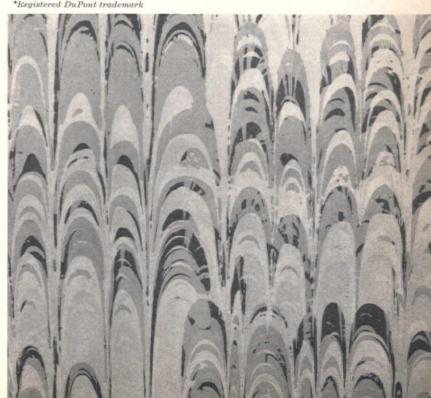

practical for large contract installations. Swatches of all colorways with the TEDLAR finish are included in the Volume 7 sample book. From your Winfield distributor, \$12.00 the copy.

FLEXLIFE: at the Pump Room

It is Chicago's most famous and elegant dining place: the Pump Room at the Ambassador East. The job: restoring the original beauty of the

Pump Room's leather settees.

The product: Flexlife.

Flexlife is the permanent coating that is brushed or sprayed onto leather, leatherette, naugahyde, or vinyl. It penetrates deep into materials, restoring strength and pliability, eliminating scuffs and scratches, as it beautifies, protecting the material, too.

Flexlife can save you time and money

Also available: FLEX-ARMOR CEMENT, the permanently flexible adhesive for repairing leather, vinyl, etc.

For further details write:

"Thai-Teak" Floors

WITHOUT MOVING THEM OUT OF THEIR PRICE RANGE!

Thai-Teak (Botanical name, Tectona Grandis; imported from Thailand) is the most elegant flooring in the world. It's lustrous and luxurious . . . easy to maintain with just an occasional waxing . . . withstands the hardest wear . . . resists termites, rot, decay. And now, Thai-Teak is available at a cost that compares with medium-priced carpet and vinyl . . . and comes in 85 different patterns. Only Bangkok Industries offers you this endless variety.

Consult Sweet's Light Construction Catalog for technical data and write Bangkok Industries for Custom Design Book.

Basketweave Pattern in offices of Kenyon & Eckhardt Adv. Agency installed by Space Design Grp.

The Low Cost of the Long View

The unparalleled beauty of Hauserman Engineered Wall Systems, such as the Signature partition shown here, reflects an appreciation of value. Their recognized sound control and full function, nowever, are only part of the story.

A lifetime financial bonus appears on closer examination of the facts. Hauserman Systems are fully movable. The entire wall, or full floors of it, can be relocated, cleanly and quickly, when the need arises. The inevitable interior layout changes, over the life of the building, are resolved at a fraction of the cost of destroying and rebuilding fixed

walls. A return of 8% or more each year on the partition investment is the Hauserman movability bonus. For the full story, write today for "The Low Cost of Quality." The E. F. Hauserman Co., 5877 Grant Ave., Cleveland, Ohio.

(In Canada: Hauserman Ltd., Toronto. In Europe: Strafor-Hauserman, Paris.)

"Here's proof our new porafior seamless flooring cut maintenance costs by more than two thirds!"

"We were paying 65c per sq. ft. to have our floors washed and waxed. With PORAFLOR, our maintenance bill shrank to 20c per sq. ft. That means we've saved \$1,125 this year by installing 2500 sq. ft. of PORAFLOR."

Here are the facts:

PORAFLOR seamless flooring stays clean and beautiful with just a damp mopping...because its high-gloss surface has the shine built in. And it's available in an unlimited range of colorful designs to suit any business decor.

PORAFLOR is waterproof, stainproof, impervious to food, ink, animal and common corrosive chemical stains. PORAFLOR is completely safe and sanitary. Its wall-to-wall seamless surface has no seams or cracks where dirt can gather and insects hide. And it isn't even slippery when wet.

PORAFLOR carries a 5-year warranty against cracking, chipping, peeling and lifting.

For more details, write or phone.

TO US, THAT'S ONLY HALF THE STORY.

A chair has more than just four legs, a seat and a back. It has to be functional. It has to stand up to hard use and sometimes to a lot of careless abuse. It's got to be all that and good looking too. Handsome by itself and above all, styled to match your surrounding decor.

Now, it's tough enough making one chair with that kind of high quality and performance. But you'll find over 400 of them in our catalog, not to mention two of our newest models you see before you. You can order from our standard line or give us your speficications for your own custom design. Either way, you're assured of competitive prices and reliable delivery. After all, we've been the specialist in public seating for over 40 years.

What more could you want, except maybe a copy of our new 104 page catalog? It's available on request, to the contract trade only.

Porter Carpet's Port Supreme installed at Berkmar County School, Gwinnett County, Georgia; Bull and Kenney, Architects, A.I.A., Atlanta, Georgia.

THIS CARPET HAS TO "TAKE-IT"....

... and it does ... it looks fresh and new while taking maximum punishment daily because Port Supreme is constructed of rugged, 100% A.C.E.(TM) continuous filament Caprolan (TM). Port Supreme reduces noise, slippage and breakage; helps hold heat and is simple and easy to repair and clean. Keeps luxuriously neat with daily vacuuming. Trims maintenance costs up to 50%. Delivery, 4 to

Eight feet of Yorkraft on an office wall . . . two centuries of Early Americana . . . color, humor, history, nostalgia, CHARM!

And the wonderful thing about Yorkraft is that it brings these priceless decorator ingredients to so many different places and spaces. Us it big, or use it small. Color an office *rich* with antiqued reds, blues and golds. Or a hotel, o motel, or bar, or lobby—wherever there's a well come for warmth and originality.

This grouping consists of fourteen Yorkraf pieces at about one hundred dollars. Our 64-pag catalog shows 30 arrangements in full color an over 300 items. Write for your copy.

YORKRAFT, INC., Dept. E, 550 South Pine Street, York, Pennsylvania 1740

YORKRAFT!

Original and beautiful wall decorations—handcrafted in antiqued colors and woods.

Holophane's Round PALa recessed incandescent luminaire that's styled for you...

engineered for your clients.

With Holophane's Round PAL®, all you see in the ceiling is a sweep of cleanly-styled rim. Even the prismatic lens is concave, recessed well above the ceiling line. No clips, latches or hinges interfere with your interior.

Above the ceiling, Round PAL is engineered for maximum lighting flexibility, dependable performance, long service life.

Specify Round PAL to enhance the decor of fine stores, lobbies, restaurants—wherever you want the warmth and true color values of glare-free incandescent lighting.

Write for a full-color brochure on this distinctively styled, high performance luminaire. Dept. J-1, Holophane Company, Inc., 1120 Avenue of the Americas, New York, N. Y. 10036.

Round PAL by

HOLOPHANE

Wunda Weve carpets are

Wunda Weve took extra pains to create commercial carpets with everything an institution needs.

They're here. And they're tough!

So dish it out. Wunda Weve commercial carpets are made to take it-the scuffle and shuffle of school children. The pounding of heavy traffic. Mud, snow, sand-you name it.

And pour it on. Wunda Weve carpets are made to clean quickly-just for the liquids

and foodstuffs that spot and spill in cafeterias, hospitals, clubs . . . everywhere.

Put the colors to the test. Wunda Weve's fashion-rich colors were created to last! The carpet born tough, that's Wunda Weve. Tough and big -up to 12' wide-to eliminate

12 FEET WIDE

seams, to look better and wear better. Little wonder the extra-strong, extra-thick pile and jute or high-density foam backing promise less wrinkling, shedding, balding or restretching.

Get tough! Get Wunda Weve!

See us in "SWEET'S"-

@WILLIAM BOWIE 1966-"ORMOLU": GOLD LEAF STEEL WALL SCULPTURE. WIDTH 80", HEIGHT 48", DEPTH 12". WRITE FOR LITERATURE.

FRITZ HANSEN 305 East 63rd Street, New York, N.Y. 10021 Originally designed by Hans J. Wegner for Copenhagen's "Furniture for Peace" exhibit in 1944, the classic "Chi-

nese" chair has been revived by FH. Elegantly crafted (almost handmade), the chair is one of Wegner's most distinguished designs. Of rosewood, walnut or cherrywood. Can be used in a dining room, around the conference table or as an occasional chair. See more of the FH furniture in our catalog.

PEOPLE!

Decorators...Designers...Architects...all look to FINESSE for their Custom Collection of over 200 Sculptured Designs.*

SCULPTURED DESIGNS that have that beautiful authentic look of wood, stone, or steel—but are constructed of strong, durable fibre-glass resins. All hand-cast, hand-finished in minute detail. Unbreakable...light in weight...custom-colored at no extra charge!

PERSONAL SPECIALIZED SERVICE: Our sculptors and designers are at your service to carry out your ideas for a complete facing of a building...a lobby ... beams for a ceiling—to capture that "old feeling" when creating a particular atmosphere in a restaurant or special room.

Next time you discuss plans for wall decor...call FINESSE. Send for our illustrated catalog, now! It's free! Write: (on business letterhead)

CONTRACT SALES CORP., DEPT. C-1 35-11 9th Street, Long Island City, N.Y. or Call: (212) YE 2-4466 ESTIMATES OR CONSULTATIONS ON REQUEST

Width: 58" x Height: 65" x Depth: 7"

*Custom Collection includes: giant columns, fountains, coats-of-arms, beer-barrel heads, logos, sculptured wall plaques, etc.

Humbug! These are the good days. Queen Ann Chairs were never made so good. Interior people have long looked for chairs of different types, *like the Queen Ann above*, that gave attention to design details and yet were built to institutional demands.

Charlotte Chair uses today's technology and over fifty years of yesterdays' experience to build chairs ... of many moods and designs. If you're looking for a particular chair to capture the character of the room you're designing, look to Charlotte . . . specialists in the fine art of chair making. Just for a start send in for the new Charlotte Catalog today.

Cown Carpet Cover STOPS DIRT AT THE DOOR

rown.

HEAVY-DUTY VINYL-BACKED NYLON MATS & RUNNERS SLASH MAINTENANCE COSTS . . . PRESERVE FLOORING

End unsightly floors with these handsome carpet-top dirt-trapping mats and runners! Quality cut-pile nylon dislodges dirt, mud, slush and snow off boots and shoes. Holds it sight unseen in the tweed designs, until you can conveniently vacuum it. Floor-hugging vinyl backing stays put—reduces slipping! Protects the 20% of your floors that takes 80% of the wear. Controls spike-heel damage and noise too! Write for Bulletin 3019.

MATS FOR EVERY PURPOSE—Carpet-top entry mats and matting and cushioned anti-fatigue matting. Ask your maintenance supplier today.

...even when you try, years later!

The stable table.

Even trying, you can hardly shake it. The solidest, steadiest folding table made. And just as unshakeable after countless take-downs, and long punishment from cleaning people, school kids, other tough customers. Outdoor plywood resists warping. Triple-chromed legs, too.

Folding tables (all shapes) • Benches • Stage Units / Hanover, Pa. 17331 Circle No. 205 on product information card

Gretchen really gets involved.

And she should...she's our president, Gretchen Birge, AIA, AID. You probably know her as an architect or interior designer. We know her as someone who understands completely what a professional demands. That wallcovering Gretchen is 'involved' in is from a brand new collection. It's called "Folklore" by Salubra. It reflects a diverse selection of authentic Folk patterns from many nations. (The one shown here is from Greece.)

100 billion tramping, scuffing, scraping feet have taught us a lesson about carpeting

The lesson is simply this: you can't sell and install carpeting for high-traffic locations unless you know what you're doing.

National Theatre Supply has been in the contract carpet business since 1927. We've installed many, many miles of carpet for thousands of theatres, schools, office buildings, stores, banks and other places where carpet must look good and act tough.

A few more facts. We offer you a greater selection of patterns, colors, fibres and weaves of *contract* carpet than you can find anywhere . . . including some exclusive Alexander Smith carpet made to our own specifications.

What's more, we have the equipment and know-how to install carpeting over big floor areas. And if you think this isn't a tricky job, watch out.

National has branches throughout the country. For more facts or an estimate, call the National branch in your area or write to:

Cold Light -- a unique accentlight which eliminates heat from the beam. An efficient porting system permits the use of the low temperature 150 watt PAR lamps. People remain cool, and the deterioration of merchandise and valuable objects is diminished. For more information about the glare-free Cold Light, write

TAPESTRY reproductions

Masterpieces by Rembrandt, Cezanne and Vermeer, art from the Middle Ages, Flemish scenes and Old World maps are reproduced on fine linen for these hanging tapestries. They are padded, auilted, embroidered in gold and lined with a free hanging satin panel. The size range is from 18" to 5". Select pieces are bound in velvet brocade, ribbon, metallic braid, and fringed in gold. Decorator pillows are also included in the line.
